A colorful, magic, visual journey through the mind of Sunny Buick. Her powerful imagery contains references to many popular subjects and sub cultures. Using creativity and humor, she courageously shows a possible surreal future filled with chimera, animals, tattooed folks amongst strange vegetation.

In COLLEGE MATHEMATICS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES, Soo T. Tan provides an accessible yet accurate presentation of mathematics combined with just the right balance of applications, pedagogy, and technology to help students succeed in the course. The new Sixth Edition includes highly interesting current applications and exercises to help stimulate student motivation. An exciting new array of supplements provides students with extensive learning support so instructors will have more time to focus on teaching core concepts.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Goosebumps creator R.L. Stine teams up with the pop-culture phenomenon Garbage Pail Kids for the third volume in this illustrated, New York Times bestselling middle-grade series The Garbage Pail Kids are off to sleepaway camp in the third installment of the New York Times bestselling Garbage Pail Kids series! Welcome to the town of Smellville, where ten kids all live in a big tumbledown house and have as much fun as they possibly can. People may think that they're gross and weird and slobby and strange, but they're not bad kids—they just don't know any better. In this hilarious series from bestselling author R.L. Stine, the Garbage Pail Kids—from Adam Bomb to Brainy Janey—get into mischief at their middle school. These all-new illustrated stories are guaranteed to amuse and entertain readers of all ages.

This book constitutes the thoroughly refereed post-proceedings of the Metainformatics Symposium, MIS 2003, held in Graz, Austria in September 2003. The 17 revised papers presented were carefully reviewed and selected for inclusion in the book. The topics addressed span the entire range from theoretical considerations of important metainformatics related questions and issues to practical descriptions of approaches and systems that offer assistance in their resolution.

Young readers will love to feel the different textures and hear the truck sounds in this interactive, sturdy board book designed for children ages 3 and up. Includes an on/off switch on the back cover to extend battery life. Touch, feel, and hear the trucks on every page of this sturdy board book. Engaging photographs and appealing textures encourage young readers to explore the exciting world of trucks. Press the touch-and-feels to hear five realistic truck sounds, with a button on the last page to play all five sounds again!

This brief examines the interaction and synergy between the philosophical concepts embedded in the ideas of Community Oriented Policing (C.O.P.) and urban security aided by technological innovations. While the philosophy of C.O.P. stresses the importance of collaboration between members of the public and its police forces technology that is becoming rapidly integrated in various police tactics creates new legal challenges and operational hurdles. This approach, coined as "Next Generation Community Policing", is discussed through the chapters of the brief and illustrated with examples from a number of different countries and their approaches to this topic. This Brief will be of interest to researchers in criminology and criminal justice, particularly in police studies, as well as related fields such as urban security planning and sociology.

A riveting Vietnam War story--and one of the most dramatic in aviation history--told by a New York Times bestselling author and a prominent aviation historian Every war has its "bridge"--Old North Bridge at Concord, Burnside's Bridge at Antietam, the railway bridge over Burma's River Kwai, the bridge over Germany's Rhine River at Remagen, and the bridges over Korea's Toko Ri. In Vietnam it was the bridge at Thanh Hoa, called Dragon's Jaw. For seven long years hundreds of young US airmen flew sortie after sortie against North Vietnam's formidable and strategically important bridge, dodging a heavy concentration of anti-aircraft fire and enemy MiG planes. Many American airmen were shot down, killed, or captured and taken to the infamous "Hanoi Hilton" POW camp. But after each air attack, when the smoke cleared and the debris settled, the bridge stubbornly remained standing. For the North Vietnamese it became a symbol of their invincibility; for US war planners an obsession; for US airmen a testament to American mettle and valor. Using after-action reports, official records, and interviews with surviving pilots, as well as untapped Vietnamese sources, Dragon's Jaw chronicles American efforts to destroy the bridge, strike by bloody strike, putting readers into the cockpits, under fire. The story of the Dragon's Jaw is a story rich in bravery, courage, audacity, and sometimes luck, sometimes tragedy. The "bridge" story of Vietnam is an epic tale of war against a determined foe.
