The body of a twenty-three year old college student is discovered, horribly mutilated in the science building at New York State University, along with two all too familiar enveloped letters. One is addressed to Detectives Jennifer Adams and Brody Scott, and the other to Rebecca Lawton. The trio is forced to revisit the brutal Executioner case once again, thrust headlong into a situation even more brutal and chilling than before. Is someone mimicking The Executioner or finishing the work that he began? When another body, a thirty-three year old male, is discovered one day later, the team realizes that they are dealing with a second serial killer. She has been penned The Black Widow and leaves a calling card, a black rose and a creepy porcelain doll mask, at the crime scene of each of her victims. As the team draws closer to her identity, she sets her sights too close to home. As the crimes grow more violent and brutal, the team pieces together the clues, clues that will uncover deadly and shocking secrets leading to a conclusion that will change everything.
