He has vague plans to start a new life, to buy a ranch and farm cotton, but unresolved childhood obsessions, fantasies, traumas resurface, threatening to overwhelm his very sense of identity. Consumed with thoughts of revenge against the man who murdered his father when he was only two, he discovers that he may in fact have been the lovechild of his rich godfather--the man who ordered the hit--and may therefore be the half-brother of the girl for whom he harbored an adolescent sexual fixation. In this masterful novel rich in local color, João Almino creates a complex, damaged narrator inexorably dragged down into the vortex of his own treacherous memories.

In the ruthless arena of King Henry VIII's court, only one man dares to gamble his life to win the king's favor and ascend to the heights of political power England in the 1520s is a heartbeat from disaster. If the king dies without a male heir, the country could be destroyed by civil war. Henry VIII wants to annul his marriage of twenty years, and marry Anne Boleyn. The pope and most of Europe opposes him. The quest for the king's freedom destroys his adviser, the brilliant Cardinal Wolsey, and leaves a power vacuum. Into this impasse steps Thomas Cromwell. Cromwell is a wholly original man, a charmer and a bully, both idealist and opportunist, astute in reading people and a demon of energy: he is also a consummate politician, hardened by his personal losses, implacable in his ambition. But Henry is

volatile: one day tender, one day murderous. Cromwell helps him break the opposition, but what will be the price of his triumph? In inimitable style, Hilary Mantel presents a picture of a half-made society on the cusp of change, where individuals fight or embrace their fate with passion and courage. With a vast array of characters, overflowing with incident, the novel re-creates an era when the personal and political are separated by a hairbreadth, where success brings unlimited power but a single failure means death.
