An Epidemic of Empathy in Healthcare: How to Deliver ...

An Epidemic of Empathy in Healthcare: How to Deliver Compassionate, Connected Patient Care that Creates a Competitive Advantage by Thomas H. Lee was kind of a mouthful of a book. It attracted me, predictably, because I am serious about empathy in healthcare. I've seen many examples of healthcare where empathy is lacking, and it breaks me.

An Epidemic of Empathy in Healthcare: How to Deliver ...

At a time when consumers are increasingly engaged in their healthcare decisions and providers are being called upon to deliver even greater value, An Epidemic of Empathy in Healthcare presents a clear path to patient-centered care. Drawn from Dr. Lee's extensive research and experience in healthcare performance improvement, the book details the strategic imperative for provider organizations to employ a more patient-centric approach in order to capture and retain business.

The Ever-Lasting Epidemic of Selective Empathy October 27, 2019 When Quasimodo's beloved home went up in flames and lit up the Parisian sky on April 15, the international grief was unimaginable. One of the Western world's symbols of history, relics of art, and monuments of Catholicism burned.

The Ever-Lasting Epidemic of Selective Empathy ...

One of the most overused and abused terms is "empathy." It has reached epidemic levels and is killing us. As is true of many aspects of modern politics the problem started with Bill Clinton. In his...

The Empathy Epidemic - American Thinker

As with previous epidemics, the response to COVID-19 has combined law and medicine, politics and health care. Assignment: Write an essay in which you consider the role of empathy in fighting disease. Using both Jamison and Cohen, make an argument about how and why empathy impacts the way we respond to a disease, and to the people who have it. You can consider COVID-19 or another disease (cancer, addiction, mental illness) in order to analyze empathy's impact on how—and whether—we work ...

How And Why Empathy Impacts The Way We Respond To A ...

In An Epidemic of Empathy in Healthcare, he argues that we must have it both ways—that combining advanced science with empathic care is the only way to build the health systems our society needs and deserves. Organizing providers so that care is compassionate and coordinated is not only the right thing to do for patients, it also forms the core of strategy in healthcare's competitive new marketplace.
