Approaches to Social Research 6e - Oxford University Press

Social Research is a scientific approach of adding to the knowledge about society and social phenomena. Knowledge to be meaningful should have a definite purpose and direction. The growth of knowledge is closely linked to the methods and approaches used in research investigation. Hence the social science research must be guided by certain laid down objectives enumerated below:

Social Research - Definition, Steps and Objectives - MBA ...

Positivism and Interpretivism are the two basic approaches to research methods in Sociology. Positivist prefer scientific quantitative methods, while Interpretivists prefer humanistic qualitative methods. This post provides a very brief overview of the two.

Positivism and Interpretivism in Social Research ...

This text provides a comprehensive guide to doing research in the social and behavioral sciences—from research design and sampling to collecting and analyzing data.

Social Research Methods | SAGE Publications Inc

In this book, three research approaches are advanced: (a) qualitative, (b) quantitative, and (c) mixed methods. Unquestionably, the three approaches are not as discrete as they first appear. Qualitative and quanti- tative approaches should not be viewed as rigid, distinct categories, polar opposites, or dichotomies.

The Selection of a Research Approach

In the last two posts, I've focused purely on statistical topics – one-way ANOVA and dealing with multicollinearity in R. In this post, I'll deviate from the pure statistical topics and will try to highlight some aspects of qualitative research. More specifically, I'll show you the procedure of analyzing text mining and visualizing the text [...]

Qualitative Research in R | DataScience+

SRA members are in a good position to relate, not just the theory behind new approaches, but also how they can be made to work (or adapted) in practical research settings. Many SRA members are also using and applying the best research to try to influence the thinking of policy makers, whether in government or the voluntary sector.
