Blue Dreams: The Science and the Story of the Drugs That ...

Blue Dreams: The Science and the Story of the Drugs that Changed Our Minds by Clinical Psychologist and best selling author of Prozac Diary, Dr. Lauren Slater, is a fascinating history of psychopharmacology told with scientific rigour along with the empathic recounting of the author ' s own experiences. I enjoyed the chapters on antidepressants and on placebos but the chapters that really blew me away were the ones on psychedelics.
