A brilliant and defiant celebration of driving as a unique pathway of human freedom, by "one of the most influential thinkers of our time" (Sunday Times) "Why We Drive weaves philosophers, thinkers, and scientific research with shade-tree mechanics and racers to defend our right to independence, making the case that freedom of motion is essential to who we are as a species. ... We hope you'll read it." -Road & Track Once we were drivers, the open road alive with autonomy, adventure, danger, trust, and speed. Today we are as likely to be in the back seat of an Uber as behind the wheel ourselves. Tech giants are hurling us toward a shiny, happy "self-driving" future, selling utopia but equally keen to advertise to a captive audience strapped into another expensive device. Are we destined, then, to become passengers, not drivers? Why We Drive reveals that much more may be at stake than we might think. Ten years ago, in the New York Times-bestselling Shop Class as Soulcraft, philosopher-mechanic Matthew B. Crawford—a University of Chicago PhD who owned his own motorcycle shop—made a revolutionary case for manual labor, one that ran headlong against the pretensions of white-collar office work. Now, using driving as a window through which to view the broader changes wrought by technology on all aspects of contemporary life, Crawford investigates the driver's seat as one of the few remaining domains of skill, exploration, play—and freedom. Blending philosophy and hands-on storytelling, Crawford grounds the narrative in his own experience in the garage and behind the wheel, recounting his decade-long restoration of a vintage Volkswagen as well as his journeys to thriving automotive subcultures across the country. Crawford leads us on an irreverent but deeply considered inquiry into the power of faceless bureaucracies, the importance of questioning mindless rules, and the battle for democratic self-determination against the surveillance capitalists. A meditation on the competence of ordinary people, Why We Drive explores the genius of our everyday practices on the road, the rewards of "folk engineering," and the existential value of occasionally being scared shitless. Witty and ingenious throughout, Why We Drive is a rebellious and daring celebration of the irrepressible human spirit.

There's a crime. There's a master criminal. There's a fat man in a fez. Fans of Lizard music take note. Chicken man is here, & his chicken dances while Daniel Pinkwater defies gravity to bring you a mind-boggling feast

For the Vampire community, the Solstice Choosing has been the holiest night of the year - for a hundred thousand years. But this year, something new is about to happen. The oldest prophecies are about to be fulfilled - and the Festival of Blessings is finally upon us.

Audio mastering is the final step in the audio production process, polishing the recording's final mix and prepping it for release and distribution. This fourth edition of Bobby Owsinski's classic The Mastering Engineer's Handbook is a thoroughly updated and comprehensive manual on the art and science of creating well-mastered recordings. Today's musicians and engineers have many high quality and low cost software-based mastering tools available to them, but the challenge is to understand those tools and learn to use them wisely. Redesigned and updated to reflect both the latest in technology and recent changes in the marketplace, this new edition shows you both the fundamentals, and the advanced aspects of both self-mastering, and prepping your mix for mastering by a pro. Topics covered include: Techniques for making a hot-level master A comprehensive look at mastering for vinyl including the format's latest technology improvements Mastering techniques for the best sounding online streams An overview of the tools required for successful self-mastering The book also features interviews with a number of legendary mastering engineers discussing their techniques and tips that will help you master your own music with style and technical know-how. Give your music the benefit of the expertise you'll find with The Mastering Engineer's Handbook, Fourth Edition.

Cowboy Small takes good care of his horse, rides the range, helps in the roundup, and rides a bucking bronco, in a board-book adaptation of a long-time children's favorite.

Enna is a girl who doesn't believe in herself and often utters the phrase "I can't do that!" One night in a dream she sees all the possible future versions of herself, discovering that she can be any of those versions with time, knowledge and dedication. She develops a growth mindset throughout her journey and instead of saying "I can't do that," she learns to say "I can't do that YET!".

Painting fun with Peppa Pig! Grab your paintbrush, it's time to get creative with Peppa Pig! Boys and girls ages 3 to 7 will love this activity book featuring 16 different watercolor paints, a sturdy paintbrush, and tons of fun pictures of Peppa dressed as a ballerina, George playing with Mr. Dinosaur, the whole family at the beach, and much more! Peppa Pig is a loveable little piggy who lives with her younger brother George, Mummy Pig and Daddy Pig. Peppa loves playing games, dressing up, visiting exciting places, and making new friends--but her absolute favorite thing is jumping up and down in muddy puddles! Peppa Pig airs daily on Nick Jr. and focuses on strong brand values that parents and kids identify with: family, friendship, trust, humor and life experiences.

What would you do on a day off from school? Go on an adventure, of course! Meet Charlie, an eight-year-old boy with a flare for using his imagination. Join him as he turns his snow day into a day filled with fun, excitement, and fantasy. Travel with Charlie to the Wild West, the Amazon jungle, and into outer space. Ride along for the thrills as he becomes a race car driver, a pirate, a cowboy, and even a superhero! With a little creativity (and a basement full of junk), there is no limit to where your imagination can take you!
