Virtual communities of practice are loose or tight communities of practice that may be geographically dispersed, communicating through the use of Internet software (usually a kind of portal) that provide collaboration and information tools (email, online discussions (forums, videoconferencing, CSCW tools, etc). A well designed portal that provides both functionality and a sense of "social presence and being there" may help.

Building community is more important now than ever, as most of students' lives have gone virtual. Many colleges have pivoted their student services to a virtual setting. At Northern Virginia Community College, students can enter a virtual lobby on Zoom that connects them with advisers, who then connect them with the services they need.
