KENNETH E. HAGIN COLLECTION (85 BOOKS) Kenneth Erwin Hagin (August 20, 1917 - September 19, 2003) was an American preacher. Kenneth E. Hagin was born in McKinney, Texas, the son of Lillie Viola Drake Hagin and Jess Hagin. According to Hagin's testimony, he was born with a deformed heart and what was believed to be an incurable blood disease.

Rev. Hagin describes in fascinating detail all of his major visions of Jesus in the book I Believe in Visions. These visions have dramatically influenced Rev. Hagin's half century of ministry.

The infilling of the New Testament believers with the Holy Ghost should be our pattern today. I propose that we look at the Acts of the Apostles, see how they did it, and follow their example in getting people filled with the Holy Ghost.

The Name of Jesus. It's known to people everywhere. Some revere it. Others use it as an oath. For Christians, it identifies who they are. The Bible says that all Heaven, earth, and hell respond to the Name of Jesus.

Kenneth E. Hagin shows the believer how to get prayers answered. Effective praying, he explains is the result of following certain Biblical principles he outlines in this book.

Read about the meaning and the Holy Spirit and His Gifts that Jesus will share and understand the Holy Spirit with you.

Evolution of Living Organisms: Evidence for a New Theory of Transformation discusses traditional interpretations of evolution with a new assumption. The book presents a rational and general account of real evolutionary phenomena based on paleontology and molecular biological data. The text reviews biological evolution from the simple to the complex or progressive and regressive evolution. The author explains the appearance of types of organization from Captorhinomorphs to Pelycosaurians to the Theriodonts from which the mammals arose. He also explains that in the evolution to mammals, the transformation of the Theriodonts concerned only the skeleton, muscles, dentition, and not the brain. He cites the case of the Perissodactyls as an example. The author also asserts that paleontology and molecular biology can explain the mechanism of evolution without even detailing the causes of orientations of lineages, of the finalities of structures, of living functions, and of cycles. But this approach will involve metaphysics. This book can be appreciated by anthropologists, researcher and scientists involved in zoology, paleontology, genetics and biochemistry.

Rev Hagin shares inspiring anecdotes about great prayer warriors from the past: Charles Finney, George Whitfield, Smith Wigglesworth, P.C. Nelson, and John G. Lake. Instead of arguing with the Bible, why don't you just side in with it?

What Faith Is teaches believers how to lay hold of the desires of hope and bring them into the realm of reality.

This classic treasury of messages on faith can help believers understand the basic principles vital to the lifestyle of faith.

As a young preacher, Rev. Kenneth E. Hagin asked himself this question. He studied the subject and concluded the following: "We as a Church have authority on the earth that we've never yet realized... A few of us have barely gotten to the edge of that authority, but before Jesus comes again, there's going to be a whole company of believers who will rise up with the authority that is theirs. They will know what is theirs, and they will do the work that God intended they should do." During the past 30 years, over a million readers have been blessed by this classic faith-building message by Rev. Hagin. In his clear and illustrative style, he uses the Word of God to explain the authority that belongs to every believer. Book jacket.
