This is an excellent book for B2B companies to "cross the chasm" that sets apart early adopters of a new, innovative product from the mainstream market. It brings original and insightful ideas that have been tested (and being the 3rd edition of the book, it even includes examples of companies that deployed the ideas of the 1st edition).

Crossing the Chasm, 3rd Edition (Collins Business Essentials) Geoffrey A Moore. 4.7 out of 5 stars 630. Paperback. \$8.83. Inside the Tornado: Strategies for Developing, Leveraging, and Surviving Hypergrowth Markets (Collins Business Essentials) Geoffrey A. Moore.

The bible for bringing cutting-edge products to larger markets—now revised and updated with new insights into the realities of high-tech marketing In Crossing the Chasm, Geoffrey A. Moore shows that in the Technology Adoption Life Cycle—which begins with innovators and moves to early adopters, early majority, late majority, and laggards—there is a vast chasm between the early adopters and the early majority. While early adopters are willing to sacrifice for the advantage of being first, the early majority waits until they know that the technology actually offers improvements in productivity. The challenge for innovators and marketers is to narrow this chasm and ultimately accelerate adoption across every segment. This third edition brings Moore's classic work up to date with dozens of new examples of successes and failures, new strategies for marketing in the digital world, and Moore's most current insights and findings. He also includes two new appendices, the first connecting the ideas in Crossing the Chasm to work subsequently published in his Inside the Tornado, and the second presenting his recent groundbreaking work for technology adoption models for high-tech consumer markets.

Here is the bestselling guide that created a new game plan for marketing in high-tech industries. Crossing the Chasm has become the bible for bringing cutting-edge products to progressively larger

“Read this book to learn how to create a company as powerful as Apple.”—Guy Kawasaki, former chief evangelist of Apple In Escape Velocity Geoffrey A. Moore, author of the marketing masterwork Crossing the Chasm, teaches twenty-first century enterprises how to overcome the pull of the past and reorient their organizations to meet a new era of competition. The world's leading high-tech business strategist, Moore connects the dots between bold strategies and effective execution, with an action plan that elucidates the link between senior executives and every other branch of a company. For readers of Larry Bossidy's Execution, Clay Christensen's Innovator's Solution, and Gary Vaynerchuk's Crush It!, and for anyone aiming for the pinnacle of business success, Escape Velocity is an irreplaceable roadmap to the top.

Over the last 25 years, Geoffrey Moore has established himself as one of the most influential high-tech advisors in the world—once prompting Conan O'Brien to ask “Who is Geoffrey Moore and why is he more famous than me?” Following up on the ferociously innovative ESCAPE VELOCITY, which served as the basis for Moore's consulting work to such companies as Salesforce, Microsoft, and Intel, ZONE TO WIN serves as the companion playbook for his landmark guide, offering a practical manual to address the challenge large enterprises face when they seek to add a new line of business to their established portfolio. Focused on spurring next-generation growth, guiding mergers and acquisitions, and embracing disruption and innovation, ZONE TO WIN is a high-powered tool for driving your company above and beyond its limitations, its definitions of success, and ultimately, its competitors. Moore's classic bestseller, CROSSING THE CHASM, has sold more than one million copies by addressing the challenges faced by start-up companies. Now ZONE TO WIN is set to guide established enterprises through the same journey. “For any company, regardless of size or industry, ZONE TO WIN is the playbook for succeeding in today's disruptive, connected, fast-paced business world.” —Marc Benioff, CEO, Salesforce “Once again Geoffrey Moore weighs in with a prescient examination of what it takes to win in today's competitive, disruptive business environment.” —Satya Nadella, CEO, Microsoft “With this book, Geoffrey Moore continues to lead us all through ever-changing times... His work has changed the game of changing the game!” —Gary Kovacs, CEO, AVG “ZONE TO WIN uses crystal-clear language to describe the management plays necessary to win in an ever-disrupting marketplace. Regardless of your level of management experience, you will find this book an invaluable tool for building long-term success for your business.” —Lip-Bu Tan, President and CEO, Cadence Design Systems

In this bold new book, high-tech's best-known strategist makes a seminal contribution to the search for meaning in a secular era. Two questions fundamental to human existence have always been the metaphysical “where do I fit in the grand scheme of things?” and the ethical “how should I behave?” Religion is no longer a source of answers for many people, and nothing has replaced it. Moore uses his signature framework-based approach to answer these questions, taking us on an intellectual roller coaster ride through physics, chemistry, biology, the social sciences and the humanities. Along the way, he builds a metaphorical ladder that leads from the big bang to the need for ethical action in our daily lives. Combining an extraordinary range of scholarship with an accessible and entertaining writing style, The Infinite Staircase: What the Universe Tells Us About Life, Ethics, and Mortality provides a coherent and unified platform for a full human life.

The fault line -- that dangerous, unstable seam in the economy where powerful innovations and savage competition meet and create market-shattering tremors. Every company lives on it; no manager can control it. In the original edition of Living on the Fault Line, Geoffrey Moore presented a compelling argument for using shareholder value (or share price) as the key driver in management decisions. Moore now revisits his argument in the post-Internet bubble world, proving that the methods he espouses are more germane than ever and showing companies how to use them to survive and thrive in today's demanding economy. Extending the themes of Crossing the Chasm and Inside the Tornado, his first two books on the dynamics of the high-tech markets, Moore shows why sensitivity to stock price is the single most important lever for managing in the future, both as a leading indicator of shifts in competitive

advantage and as an employee motivator for making necessary changes in organizations heretofore impervious to change. This revised and updated edition includes: A deeper emphasis on core versus context, which has emerged as the key distinction in allocating resources to improve shareholder value A new Competitive Advantage Grid that will aid managers in achieving and sustaining competitive advantage, the most important component in managing for shareholder value An expanded Value Discipline Model as it relates to the Competitive Advantage Grid Analysis of the powerful new trend toward core/context analysis and outsourcing production duties Updated models of organizational change for each stage of market development As disruptive forces continue to buffet the marketplace and rattle the staid practices of the past, Moore offers a brilliant set of navigational tools to help meet today's most compelling management challenges.

Emphasizing the importance of seizing and holding marketing leadership during the "tornado" phase of market development, a strategy guide for high-tech companies and entrepreneurs analyzes the Technology Adoption Life Cycle

The possibilities are staggering: Had you invested \$10,000 in Cisco Systems in early 1990, your investment would not be worth \$1,285,000. Similarly, a \$10,000 investment made in Microsoft in 1986 would be valued at more than \$1,800,000 today. How do you get in on those deals -- especially if you're not a Silicon Valley insider? How do you buy the high-tech winners and avoid the losers? How do you find the Microsofts and Ciscos of tomorrow? The answers are here, in *The Gorilla Game*. All you have to do is learn the rules. *The Gorilla Game* reveals the dynamics driving the market for high-tech stocks and outlines the forces that catapult a select number of companies to "gorilla" status -- dominating the markets they serve in the way that Microsoft dominates software operating systems and Cisco dominates hardware for data networks. Follow the rules of *The Gorilla Game* and you will learn how to identify and invest in the "gorilla candidates" early on -- while they are fighting for dominance in their markets and while their stock is still cheap. When the dust clears and one company clearly attains leadership in its product category, you'll reap the enormous returns that foresighted investors in high-tech companies deserve. *The Gorilla Game* is the latest from bestselling author Geoffrey A. Moore, one of the world's leading consultants in high-tech marketing strategy. Here you'll find the ground-breaking ideas about technology markets that made his previous books bestsellers, combined with the work of Paul Johnson, a top Wall Street technology analyst, and Tom Kippola, a high-tech consultant and highly successful private investor. Together they have discovered and played the gorilla game and now give their readers the real rules for winning in the world of high-tech investing. Step by step you'll learn how to spot a high-tech market that is about to undergo rapid growth and development; how to identify and spread investments across the potential gorillas within the market; and how to narrow your investments to the single, emerging leader -- the gorilla -- as the market matures.
