Acces PDF Dc Shell User Guide Dc Shell User Guide v1999.10 Design Compiler User Guide dc_shell> write -hierarchy -output my_design.db To exit dc_shell, do one of the following: • Enter quit. • Enter exit. • Press Ctrl-d. When you exit dc_shell, text similar to the following appears (the memory and the CPU numbers re?ect your actual usage): Memory

Dc Shell User Guide - Give Local St. Joseph County
The following command tells # the tool that the pin named clk is the clock and that the desired clock # period is 1 nanosecond. dc_shell-topo> create_clock clk -name ideal_clock1 -period 1 # The compile_ultra command begins the actuall synthesis process that # transforms your design into a gate-level netlist.

RTL-to-Gates Synthesis using Synopsys Design Compiler
4 User Commands dc_shell-t Invokes the Design Compiler shell in dctcl mode. For more information, see the man page for dc_shell. dc_shell-t [-f script_file] [-x command_string] [-no_init] [-checkout feature_list] [-wait wait_time] [-timeout timeout_value] [-version] [-behavioral] [-fpga] [-syntax_check | -context_check] dc_shell

Synthesis Quick Reference - Computer Science
dc_shell –f scriptFile Most efficient and common usage is to put TCL commands into scriptFile ,including “quit” at the end TCL = Tool Command Language Edit and rerun scriptFile as needed GUI version (Design Vision) design_vision From dc_shell: gui_start Main advantage over dc_shell is to view the synthesized schematic

Automated Synthesis from HDL models
CS250 Tutorial 5 (Version 091210b) September 12, 2010 Yunsup Lee. In this tutorial you will gain experience using Synopsys Design Compiler (DC) to perform hardware synthesis. A synthesis tool takes an RTL hardware description and a standard cell library as input and produces a gate-level netlist as output. The resulting gate-level netlist is a completely structural description with standard cells only at the leaves of the design.

RTL-to-Gates Synthesis using Synopsys Design Compiler
For more information on the compile command consult the Design Compiler User Guide (dc-user-guide.pdf) or use man compileat the DC shell prompt. Run the following command and take a look at the output. dc_shell-xg-t> compile -map_effort medium -area_effort medium The compile command will report how the design is being optimized.

RTL-to-Gates Synthesis using Synopsys Design Compiler
the compileultracommand consult the Design Compiler User Guide (dc-user-guide.pdf) or use man compileultraat the DC shell prompt. Run the following command and take a look at the output. DC will attempt to synthesize your design while still meeting the constraints. DC considers two
