Carefully wipe down just the fletching area of the shaft with M.E.K. (Methyl Ethyl Ketone) or 91% Isopropyl Alcohol using a clean, white paper towel. If your nock is already permanently installed, use 91% isopropyl alcohol in place of all other ...

FAQs - Easton Archery - Archery Questions Answered

Bare Shaft Tuning This description is based upon a right handed archer, swap the lefts and rights around for a left handed archer. It is also assumed that you have already set the bows centre shot, although it should be noted that you can still set the centre shot on a bow even if the arrows are weak or stiff. Bare shaft tuning will help us: 1 ...

Bow Tuning - Bare Shaft

The purpose of tuning is to configure the proper combination of nocking points, arrow rest, bow, and arrows. The archer's form while tuning must be consistent. For the new archer, it is more important to work on correct and consistent form before detailed tuning. Tuning is a continuous process. As the archer's form and consistency improves, more in-depth tuning is required. Archers should ...
