The purpose of this document is to provide a summary of the basic tools that will be used in conducting assessments under the Environmentally Conscious Manufacturing (ECM) Project assessment program. ECM can cover a wide range of issues including: finding safer alternatives to toxic materials; changing processes to become more efficient; environmental costs and regulatory compliance; waste reduction; energy conservation; product packaging; and product reuse/recycling. The assessments performed as part of this program will try to identify opportunities to implement technologies/actions that will promote the types of results listed above. The general methodology, or sequence of events, that will be used in conducting assessments is as follows: 1. Form an Assessment Team; 2. Map Process by flow diagrams and materials accounting; 3. Identify opportunities for ECM by activity based accounting and pareto analysis; 4. Identify and evaluate ECM/pollution prevention alternatives; 5. Implement alternatives; 6. Monitor progress. All of the assessment steps listed above are addressed in this document except forming the assessment team. The tools discussed in this document are well known, widely used process analysis or quality improvement tools which have been adapted for use in evaluating opportunities for ECM/Pollution prevention.

Tina Besley has edited this collection which examines and critiques the ways that different countries, particularly Commonwealth and European states, assess the quality of educational research in publicly funded higher education institutions. Such assessment often ranks universities, departments and even individual academics, and plays an important role in determining the allocation of funding to support university research.

This guide provides information on the application of the "Commission Implementing Regulation (EU) 2019/779 of 16 May 2019 laying down detailed provisions on a system of certification of entities in charge of maintenance of vehicles¹ pursuant to Directive (EU) 2016/798 of the European Parliament and of the Council and repealing Commission Regulation (EU) No 445/2011 [1]" as referred to in Article 14(6) and (8) of the Safety Directive. That regulation will be referred to in the present document as the "ECM Regulation". This guide aims at a correct and common understanding of the concepts of ECM developed in the ECM Regulation but does not contain any legally binding advice. It contains explanatory information of potential use to all actors² whose activities may have an impact on the safety of railway systems and who directly or indirectly need to apply the ECM Regulation. It may serve as a clarification tool without however dictating in any manner compulsory procedures to be followed and without establishing any legally binding practice. The guide provides explanations on the provisions contained in the ECM Regulation and should aid understanding of the approaches and rules described therein. This guide has been prepared by the European Union Agency for Railways (EUAR) with the support of Recognised Bodies and National Safety Authority experts. It represents a developed collection of information gathered by the Agency during internal meetings and meetings with ACBs (Accredited Certification Bodies), RCBs (Recognised Certification Bodies) and NSAs.

In the third edition of this respected and influential textbook, Kate Wall blends theory and practice with an informative and highly accessible writing style to provide a detailed analysis of provision for young children with additional needs. New to this edition are: - up-to-date information on all the relevant policies and legislation, including the Early Years Foundation Stage (EYFS), Every Child Matters (ECM) and the training guidelines for new SENCOs; - a timeline showing the development of policies and legislation in the field; - learning objectives at the beginning of chapters; - points for reflection within chapters, to aid independent study and facilitate critical thinking; - new case studies, which cover the Birth to 8 age range; - new content on the role of

fathers, pupil voice and listening to children, taking an holistic view of the child, and current issues around diversity and inclusion. This book is essential reading for early years students and practitioners, and for all those working with young children with special educational needs and their families.

Practice and legislation in child and family social work are always changing and have once again come under the spotlight. This text contextualises the bureaucratisation and managerialism of modern social work while also covering the advanced and complex skills necessary for competent social work practice in this area. The recent introduction of a new framework for Post-Qualifying social work practice provides an opportunity for the development of a robust text covering the basics at an advanced level.

Bridging the Transition from Primary to Secondary School offers an insight into children's development, building a framework for the creation of appropriate and relevant educational experiences of children between the ages of 10-12.
