I fell in love with the Badger Hole Bar when I got the cookbook (a fun book with great recipes). After waiting for this book I was worried I would be disappointed. The only disappointment is that it came to an end. I am not disappointed with the story, the characters are strong and meld together nicely. Looking forward to the future

shackles? Dascha swore that she would never become a slave to a witch, used for energy and reduced to the role of an animated battery. Zhanna never thought that she would have a familiar, since none of the Russian witches seemed to have them. Now Dascha has found her witch and Zhanna has found her familiar. It would be better if either one of them knew what they were doing, but they trust in each other. When Dascha has the chance to get some training, something that no familiar that either of them knows has gotten, she reluctantly leaves her beloved witch for a few days. Little does she know that she will come back with a very different view of what being a familiar

Growing Hybrid Hazelnuts is the first comprehensive guide for farmers interested in how to get started growing hybrid hazelnuts, a crop designed from the very outset to address a host of problems with conventional modern agriculture. Once hybrid hazelnuts are established, no plowing, or even cultivation, is necessary. Dramatically improved infiltration rates prevent water from running off of fields, regardless of soil type.

Can she ever be “Just Cass” again? In the months since Cassandra Devlin walked off Earth onto another planet, she has grappled with everything from making blankets to helping psychics battle the memories of monsters. Not able to find a way home, she has instead gained friends and a purpose.

Unfortunately, that purpose brings with it the pressure of being more than a little valuable, and those she has befriended are also her guards, ordered to explore and control her abilities to find out just what it is a touchstone can do. This science fiction adventure blends magic and technology with the adventures of Ruth, a normal human, pushed into extraordinary situations. Ruth's transformation takes her from Earth to worlds and situations of which she never dreamed. Her second life, her journey through the star paths as an Unfetter Mage, starts here.

**Book 3** shares and preserves twenty-one original and previously unpublished Northern Paiute legends, as told by Wilson Wewa, a spiritual leader and oral historian of the Warm Springs Paiute. These legends were originally told around the fires of Paiute camps and villages during the "story-telling season" of winter in the Great Basin of the American West. They were shared with Paiute communities as a way to pass on tribal visions of the "animal people" and the "human people," their origins and values, their spiritual and natural environment, and their culture and daily lives. The legends in this volume were recorded, transcribed, reviewed, and edited by Wilson Wewa and James

Gardner. Each legend was recorded, then read and edited out loud, to respect the creativity, warmth, and flow of Paiute storytelling. The stories selected for inclusion include familiar characters from native legends, such as Coyote, as well as intriguing characters unique to the Northern Paiute, such as the creature embodied in the Smith Rock pinnacle, now known as Monkey Face, but known to the Paiutes in Central Oregon as Nuwuzoho the Cannibal. Wewa's apprenticeship to Northern Paiute culture began when he was about six years old. These legends were passed on to him by his grandmother and other tribal elders. They are now made available to future generations of

tribal members, and to students, scholars, and readers interested in Wewa's fresh and authentic voice. These legends are best read and appreciated as they were told--out loud, shared with others, and delivered with all of the verve, cadence, creativity, and humor of original Paiute storytellers on those clear, cold winter nights in the high desert.
