The relationship that developed between Edsel Ford and E.T. "e;Bob"e; Gregorie (Ford Motor Companys first design chief) was unique in automotive history. Gregorie leaned heavily on Edsel for his support and protection, and Edsel depended on Gregorie for his creative abilities. Edsel Ford and E.T. Gregorie is the first book to provide in-depth analysis of how the early Fords, Mercurys and Lincolns were designed. Based on first hand discussions with Gregorie, author Henry Dominguez covers every major design of Gregories career. Automotive historians have listed the 1936 Zephyr, 1938 Zephyr, and 1939 Continental as Gregories greatest achievements. This book details the hows and whys of every Ford product designed under his tutelage.
