850 SHP turboprop offers noise reduction, increased cruise speed. GE Aviation has received EASA type certification for its H85-200 engine on Aircraft Industries' L 410 NG commuter aircraft. The H85-200 turboprop engine, rated at 850 SHP, features an advanced reduction gearbox which lowers maximum propeller speed from 2,080 RMP to 1,950 RMP, resulting in external and internal noise reduction.
