us. They deplete our energy. They drain us of motivation. They leave us feeling weary and exhausted. If you tend to feel worn out and want to know how to replenish yourself, this book is for you. We should be able to recover from our daily obligations during our downtime. But many of us don't. In this book we will explain why downtime is inadequate for helping us recharge our batteries, and present you with an effective alternative. Recent scientific developments from around the globe have shed light on the processes that reverse the draining effects of our
