MaxLite PhotonMax LED Linear Light for Horticulture Applications. The PhotonMax LED Linear Light (PH-LI Series) can match applications where traditional 400W to 600W HID fixtures are used, in a more sleek and durable form factor. Emitting up to 761 $\mu\text{mol/s}$ with outstanding electrical efficiency (up to 2.8 $\mu\text{mol/J}$), the Linear Light produces consistent, high quality light using 50% less energy than conventional HID light sources.

output and photon efficacy. With 4 spectra combinations to choose from, our tailored spectra can meet all your various ...

The standard incandescent light bulb, which still works mainly as Thomas Edison invented it, converts more than 90% of the consumed electricity into heat. Given the availability of newer lighting technologies that convert a greater percentage of electricity into useful light, there is potential to decrease the amount of energy used for lighting in both

Read PDF Horticulture Led Lighting Collection Maxlite

commercial and residential applications. Although technologies such as compact fluorescent lamps (CFLs) have emerged in the past few decades and will help achieve the goal of increased energy efficiency, solid-state lighting (SSL) stands to play a large role in dramatically decreasing U.S. energy consumption for lighting. Since the publication of the 2013 National Research Council report *Assessment of Advanced Solid-State Lighting*, the penetration of SSL has increased dramatically, with a resulting savings in energy and costs that were foreshadowed by that study. What was not

Read PDF Horticulture Led Lighting Collection Maxlite

anticipated then is the dramatic dislocation and restructuring of the SSL marketplace, as cost reductions for light-emitting diode (LED) components reduced profitability for LED manufacturers. At the same time, there has been the emergence of new applications for SSL, which have the potential to create new markets and commercial opportunities for the SSL industry. Assessment of Solid-State Lighting, Phase Two discusses these aspects of change—highlighting the progress of commercialization and acceptance of SSL and reviewing the technical advances and challenges in achieving higher efficacy for

Read PDF Horticulture Led Lighting Collection Maxlite

LEDs and organic light-emitting diodes. This report will also discuss the recent trends in SSL manufacturing and opportunities for new applications and describe the role played by the Department of Energy (DOE) Lighting Program in the development of SSL.

This is a small book, which mainly deals with SIX bulb vegetables namely onion, garlic, shallots, leek, chives, and scallions and spring onions. All bulb vegetables are known for their characteristic pungent flavor due to the presence of a group of sulfur compounds in them. Growing practices, food

Read PDF Horticulture Led Lighting Collection Maxlite

uses and nutritional information of these bulb vegetables are explained in detail in this book.

Microdisplays are displays requiring optical magnification and OLEDs (Organic Light-Emitting Diode) are self-emitting displays where each pixel includes a LED made of organic material, in general composed of small-molecule organic material. This title reviews in detail how OLED microdisplays are made as well as how they are used. All aspects from theory to application will be addressed: basic principles, display design,

Read PDF Horticulture Led Lighting Collection Maxlite

display fabrication, operation and performances, present and future applications. The book will be useful to anyone interested in this rapidly developing field, such as students or researchers, industry professionals (engineers, project leaders) in the field of display development/fabrication and display end-users.

We reveal the best star-gazing experiences around the world, including guides to 35 dark sky sites and national parks, many accredited by the International Dark Sky Association.

This practical and comprehensive book also features information on the aurora, all 12 annual meteor showers, the next decade of full solar eclipses, an overview of commercial space flight and how to view NASA mission launches.* Published in time for the 50th anniversary year of the first Moon landing* Reader will learn where and when to go, what to bring and what to see* A great gift for stargazers and those wanting to get to know the skies

A deeply panoramic tour of the night, from its brightest spots to the darkest skies we

Read PDF Horticulture Led Lighting Collection Maxlite

have left. A starry night is one of nature's most magical wonders. Yet in our artificially lit world, three-quarters of Americans' eyes never switch to night vision and most of us no longer experience true darkness. In *The End of Night*, Paul Bogard restores our awareness of the spectacularly primal, wildly dark night sky and how it has influenced the human experience across everything from science to art. From Las Vegas' Luxor Beam -- the brightest single spot on this planet -- to nights so starlit the sky looks like snow, Bogard blends personal narrative, natural history, science, and history to shed light

Read PDF Horticulture Led Lighting Collection Maxlite

on the importance of darkness -- what we've lost, what we still have, and what we might regain -- and the simple ways we can reduce the brightness of our nights tonight.

A collection of 108 illustrated Mother Goose rhymes.

This book is a collection of poetry and images that were creative expressions of an intense inner struggle of a bright young man struggling with the mental illness of
