NEW YORK TIMES BESTSELLER * “GRIPPING...THIS YARN HAS IT ALL.” —USA TODAY * “A WONDERFUL BOOK.” —Christian Science Monitor * “ENTHRALLING.” —Kirkus Reviews (starred review) * “A MUST-READ.” —Booklist (starred review) A human drama unlike any other—the riveting and definitive full story of the worst sea disaster in United States naval history. Just after midnight on July 30, 1945, the USS Indianapolis is sailing alone in the Philippine Sea when she is sunk by two Japanese torpedoes. For the next five nights and four days, almost three hundred miles from the nearest land, nearly nine hundred men battle injuries, sharks, dehydration, insanity, and eventually each other. Only 316 will survive. For the first time Lynn Vincent and Sara Vladic tell the complete story of the ship, her crew, and their final mission to save one of their own in “a wonderful book...that features grievous mistakes, extraordinary courage, unimaginable horror, and a cover-up...as complete an account of this tragic tale as we are likely to have” (The Christian Science Monitor). It begins in 1932, when Indianapolis is christened and continues through World War II, when the ship embarks on her final world-changing mission: delivering the core of the atomic bomb to the Pacific for the strike on Hiroshima. “Simply outstanding...Indianapolis is a must-read...a tour de force of true human drama” (Booklist, starred review) that goes beyond the men’s rescue to chronicle the survivors’ fifty-year fight for justice on behalf of their skipper, Captain Charles McVay III, who is wrongly court-martialed for the sinking. “Enthralling...A gripping study of the greatest sea disaster in the history of the US Navy and its aftermath” (Kirkus Reviews, starred review), Indianapolis stands as both groundbreaking naval history and spellbinding narrative—and brings the ship and her heroic crew back to full, vivid, unforgettable life. “Vincent and Vladic have delivered an account that stands out through its crisp writing and superb research...Indianapolis is sure to hold its own for a long time” (USA TODAY).

The first in-depth look at how women have shaped the history and legacy of Indiana University. Women first enrolled at Indiana University in 1867. In the following years they would leave an indelible mark on this Hoosier institution. However, until now their stories have been underappreciated, both on the IU campus and by historians, who have paid them little attention. Women at Indiana University draws together 15 snapshots of IU women's experiences and contributions to explore essential questions about their lives and impact. What did it mean to write the petition for women's admission or to become the first woman student at an all-male university? To be a woman of color on a predominantly white campus? To balance work, studies, and commuting, entering college as a non-traditional student? How did women contribute to their academic fields and departments? How did they tap opportunities, confront barriers, and forge networks of support to achieve their goals? Women at Indiana University not only opens the door to a more inclusive and accurate understanding of IU's past and future, but also offers greater visibility for Hoosier women in our larger understanding of women in American higher education.

What happens when Americans lose their jobs? In American Made, an illuminating story of ruin and reinvention, Pulitzer Prize-winning journalist Farah Stockman gives an up-close look at the profound role work plays in our sense of identity and belonging, as she follows three workers whose lives unravel when the factory they have dedicated so much to closes down. “With humor, breathtaking honesty, and a historian’s satellite view, American Made illuminates the fault lines ripping America apart.”—Beth Macy, author of Factory Man and Dopesick Shannon, Wally, and John built their lives around their place of work. Shannon, a white single mother, became the first woman to run the dangerous furnaces at the Rexnord manufacturing plant in Indianapolis, Indiana, and was proud of producing one of the world’s top brands of steel bearings. Wally, a black man known for his initiative and kindness, was promoted to chairman of efficiency, one of the most coveted posts on the factory floor, and dreamed of starting his own barbecue business one day. John, a white machine operator, came from a multigenerational union family and clashed with a work environment that was increasingly hostile to organized labor. The Rexnord factory had served as one of the economic engines for the surrounding community. When it closed, hundreds of people lost their jobs. What had life been like for Shannon, Wally, and John, before the plant shut down? And what became of them after the jobs moved to Mexico and Texas? American Made is the story of a community struggling to reinvent itself. It is also a story about race, class, and American values, and how jobs serve as a bedrock of people’s lives and drive powerful social justice movements. This revealing book shines a light on a crucial political moment, when joblessness and anxiety about the future of work have made themselves heard at a national level. Most of all, American Made is a story about people: who we consider to be one of us and how the dignity of work lies at the heart of who we are.

A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary’s authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.
