Older adults are becoming increasingly dissatisfied with service quality citing deficits in provider communication and relationship skills. The author argues this dissatisfaction is largely related to three widespread issues: ageism, use of professional jargon, and age-related changes in the older adult.

Communication with Older Adults, 2015. Three Special C's. Because poor quality interpersonal communication can be a major source of stress and create significant problems for providers, older adults, and aging services-related organizations, Chapter 7 focuses on a special C—calmness. It includes detailed suggestions about how to develop a stress management plan of care—both for individual providers and employing organizations.
