## Site Supervisor's Job Project

supervisor's job is never boring - every day is different, each project is different, different locations and different people, all presenting new challenges. A construction foreman, foreperson or supervisor, supervises a work crew, or manages a section of work. They're at the coalface of every construction project - the critical link in the construction process. Good foremen and supervisors are essential to the success of every construction project and every construction company, indeed, they're invaluable. Yet, few managers and supervisors are

prepared to mentor and train

the next generation of supervisors and foremen.

Most supervisors and foremen have years of experience on the tools, learning their trade, sometimes through apprenticeships, but mostly learning from others. These skills are focused on a particular trade or skill.

But, being a supervisor is a different ballgame. Where before, as a trades-person they were doing the work themselves, now as supervisor they must organise and manage others doing the work. I'm a construction professional with 30 years of experience and the author of several
