" It's not so surprising that on the day of my fifth wedding anniversary I would be crouched in the open door of an airplane, thirteen thousand feet above the Colorado plains, about to jump out. That coincidence of timing really wasn't. " Steph Davis is a superstar in the climbing community and has ascended some of the world's most awe-inspiring peaks. But when her husband makes a controversial climb in a national park, the media fallout—and the toll it takes on her marriage—suddenly leaves her without a partner, a career, a source of income . . . or a purpose. In the company of only her beloved dog, Fletch, Davis sets off on a search for a new identity and discovers skydiving. Though falling out of an airplane is completely antithetical to the climber's control she'd practiced for so long, she turns each daring jump into an opportunity to fly, first as a skydiver, then as a base jumper, and finds herself indelibly changed. As she opens herself to falling, she also finds the strength to open herself to love again, even in the wake of heartbreak. And before too long, she fortuitously meets someone who shares her passions. Learning to Fly is Davis's fascinating account of her transformation. From her early tentative skydives, to zipping into her first wingsuit, to surviving devastating accidents against the background of breathtaking cliffs, to soaring beyond her past limits, she discovers new hope and joy in letting go. Learning to Fly isn't just an adventure but a woman's story of risk-taking and self-discovery, with love at its heart.

A graduate of West Point and an inductee in the National College Football Hall of Fame for his All-American performance for Army, Olds was one of the toughest college football players at the time. In WWII, Olds quickly became a top fighter pilot and squadron commander by the age of 22—and an ace with 12 aerial victories. But it was in Vietnam where the man became a legend. He arrived in 1966 to find a dejected group of pilots and motivated them by placing himself on the flight schedule under officers junior to himself, then challenging them to train him properly because he would soon be leading them. Proving he wasn't a WWII retiread, he led the wing with aggressiveness, scoring another four confirmed kills, becoming a rare triple ace. Olds (who retired a brigadier general and died in 2007) was a unique individual whose personal story is one of the most eagerly anticipated military books of the year.
