"Easy to use and easy to afford, The Little Seagull Handbook is the #1 brief handbook because students say it has a positive impact on their writing. Intuitive organization, color-coding, and jargon-free instruction for common kinds of writing make it a reference tool that student writers truly use. This edition includes NEW advice for conducting research as it's done online today, NEW student model essays, and a NEW chapter on writing summary/response essays" --

The #1 brief handbook--and one that students say improves their writing

A pocket-sized handbook that's easy to use and covers the kinds of writing college students need to do. The Little Seagull Handbook offers the kind of succinct advice students need about grammar, punctuation, documentation, and the writing process—an in addition, it covers the kinds of writing they are most often assigned—reports, analyses, narratives, and more. The second edition includes unique help for students whose primary language is not English. Available in two versions—with and without exercises.

Most handbooks include chapters on various general writing topics (e.g., the writing process or the elements of an argument), but few cover the specific kinds of writing students are assigned to do. The Little Seagull has chapters on reports, analyses, and all the other genres that college students are most often assigned. And because it's so small, so easy to use, and so affordable, it's proven to be a popular alternative to larger (and much more costly) handbooks. The third edition adds a new section on editing the errors that matter—and the option to include free access to InQuizitive for Writers, which provides practice in editing the same errors.
