Print. Dark. Light. New Distribution Capability (" NDC ") is a standard for the transmission of data between different actors in the air travel value chain. It is not an industry portal nor a commercial service but a data exchange standard providing basic definitions, structures and formats for the transmission of data, allowing a range of possibilities for the enhancement of the air travel shopping experience.

~~New Distribution Capability - Data Protection~~

NDC (New Distribution Capability) is a travel industry-supported program (NDC Program) launched by IATA for the development and market adoption of a new, XML-based data transmission standard (NDC Standard). The NDC Standard enhances the capability of communications between airlines and travel agents. The NDC Standard is open to any third party, intermediary, IT provider or non-IATA member, to implement and use.
