"Mysticism, horror, and racial identity merge fluidly in this thrilling tale... The suspense is tangible and the final reveal will leave readers reeling"—Publishers Weekly, STARRED review From groundbreaking Black author Pauline Hopkins comes an uncanny example of classic horror, exploring identity, race, and spirituality When medical student Reuel Briggs reluctantly attends a performance by the beautiful singer Dianthe Lusk, he can't help but fall for her. The very next day, their paths cross again when Dianthe's train crashes. To bring her back from the brink of death, Reuel draws on an eerie power he can't quite name. Soon, the two are engaged, and Reuel sets off on an archeological expedition to Africa to offset his debts before the wedding. But, in Ethiopia, unexpected danger and terror force him to confront the truth about his lineage, his power, and the disturbing history that lives in his very blood. First serialized in Colored American Magazine in 1902, this classic fiction exemplifies Pauline Hopkins's incisive writing and interrogates issues of race, blood, and history that remain urgent today. This edition of Hopkins's classic horror novel is presented by the Horror Writers Association and introduced by award-winning author Nisi Shawl. Includes notes, biographical information about the author, discussion questions for classroom use, and suggested further reading.

Dr. Perkins' final manifesto on race, faith, and reconciliation We are living in historic times. Not since the civil rights movement of the 60s has our country been this vigorously engaged in the reconciliation conversation. There is a great opportunity right now for culture to change, to be a more perfect union. However, it cannot be done without the church, because the faith of the people is more powerful than any law government can enact. The church is the heart and moral compass of a nation. To turn a country away from God, you must sideline the church. To turn a nation to God, the church must turn first. Racism won't end in America until the church is reconciled first. Then—and only then—can it spiritually and morally lead the way. Dr. John M. Perkins is a leading civil rights activist today. He grew up in a Mississippi sharecropping family, was an early pioneer of the civil rights movement, and has dedicated his life to the cause of racial equality. In this, his crowning work, Dr. Perkins speaks honestly to the church about reconciliation, discipleship, and justice... and what it really takes to live out biblical reconciliation. He offers a call to repentance to both the white church and the black church. He explains how band-aid approaches of the past won't do. And while applauding these starter efforts, he holds that true reconciliation won't happen until we get more intentional and relational. True friendships must happen, and on every level. This will take the whole church, not just the pastors and staff. The racial reconciliation of our churches and nation won't be done with big campaigns or through mass media. It will come one loving, sacrificial relationship at a time. The gospel and all that it encompasses has always traveled best relationally. We have much to learn from each other and each have unique poverties that can only be filled by one another. The way forward is to become "wounded healers" who bandage each other up as we discover what the family of God really looks like. Real relationships, sacrificial love between actual people, is the way forward. Nothing less will do.

One Blood traces both the life of the famous black surgeon and blood plasma pioneer Dr. Charles Drew and the well-known legend about his death. On April 1, 1950, Drew died after an auto accident in rural North Carolina. Within hours, rumors spread: the man who helped create the first American Red Cross blood bank had bled to death because a whites-only hospital refused to treat him. Drew was in fact treated in the emergency room of the small, segregated Alamance General Hospital. Two white surgeons worked hard to save him, but he died after about an hour. In her compelling chronicle of Drew's life and death, Spencie Love shows that in a generic sense, the Drew legend is true: throughout the segregated era, African Americans were turned away at hospital doors, either because the hospitals were whites-only or because the 'black beds' were full. Love describes the fate of a young black World War II veteran who died after being turned away from Duke Hospital following an auto accident that occurred in the same year and the same county as Drew's. African Americans are shown to have figuratively 'bled to death' at white hands from the time they were first brought to this country as slaves. By preserving their own stories, Love says, they have proven the enduring value of oral history. General Interest/Race Relations

Hagar's Daughter is Pauline Elizabeth Hopkins's first serial novel, published in the Boston-based Colored American Magazine (1901-02). The novel features concealed and mistaken identities, dramatic revelations, and extraordinary plot twists, including a high-profile murder trial, an abduction plot, and a steady succession of surprises as the young black maid Venus Johnson assumes male clothing to solve a series of mysteries. Because Hagar's Daughter demonstrates Hopkins's keen sense of history, use of multiple literary genres, emphasis on gender roles, and political engagement, it provides the perfect introduction to the author and her era. In the appendices to this Broadview Edition, advertising, other writing by Hopkins and her contemporaries, and reviews situate the work within the popular literature and political culture of its time.

Uses primary research and secondary literature to explore the origins of abolitionism and its commitment to racial equality, including discussion of the role of women, the working class, and the churches.

1960, and Sister Conchita, the young nun with a flair for detection, has been forced to leave her beloved Malaita and assume reluctant command of a run-down mission in the lush, primitive Western District of the Solomon Islands. The group of three elderly sisters currently there are rumoured to have 'gone native' and Conchita tries to grapple with these eccentric, tough-minded insurgents and the secrets they are keeping when an American tourist is murdered in their mission church but perplexingly, the colonial authorities want nothing to do with this bizarre crime. Help is at hand for Sister Conchita in the shape of her friend Sergeant Ben Kella, the local police officer but also the aofia, the traditional law-bringer of the islands. Together, the idealistic young nun and practical witch doctor set out to solve the mystery. In the process they discover links to a local independence organisation, a powerful international logging company, and, most puzzling of all, to John F. Kennedy, a former wartime US naval officer in the area but now, thousands of miles away, about to become the 35th president of the USA. Praise for Devil-Devil: The mystery takes a back seat to [Kent's] knowledge of the exotic location and the combustible chemistry of his protagonists (the oddest couple since The African Queen), which add immensely to his story's charm. Kirkus Review

Go to the heart of this cultural issue! Racism cannot be solved by laws, educational programs, or secular science. It is a sin and only God has the solution. Discussions about "race" are too often confused with political correctness or cultural buzzwords. Yet, it is vital to have this difficult conversation with children in a way they can understand. And God has given us a simple, powerful answer in the Bible. Reveals how biblical history makes clear what science is only now understanding. Addresses cultural differences, people groups, and the science of skin tones. Sweeps away the flawed evolutionary foundation of racism with God's enduring truth! Apologetics powerhouse Ken Ham provides children important insight and a biblical foundation that combats the idea of human "races." From the Garden of Eden to our world today, there is just one race – the human race. Once you understand that, racism loses its power!

More than half a century has passed since the horrors of the Nazi racial extermination camps were revealed to a disbelieving world. Yet the battle of ethnic hate and violence remains one of the burning issues of our time. Billions of dollars are spent fighting it. Oprah devotes entire programs to it. Presidents consult civic and religious leaders; everyone seems to be wrestling with the problems of racial prejudice, yet solutions evade us. What does race really mean? Are there really multiple races of humans? Where did this concept originate?

First published in May 1900, the Colored American Magazine provided a pioneering forum for black literary talent previously stifled by lack of encouragement and opportunity. Not only a prolific writer for the journal, Pauline Hopkins also served as one of its powerful editorial forces. This volume of her magazine novels, which appeared serially in the journal between March 1901 and November 1903, reveals Hopkins' commitment to fiction as a vehicle for social change. She weaves important political themes into the narrative formulas of nineteenth-century dime-store novels and story papers, which emphasize suspense, action, complex plotting, multiple and false identities, and the use of disguise. Offering both instruction and entertainment, Hopkins' novels also expose the limitations of popular American narrative forms when telling the stories of black characters.
