Orthopedic Physical Exam
Documentation

Documentation of a normal neck
and back exam should look
something along the lines of the
following: Neck and back have no
deformities, external skin
changes, or signs of trauma.

Curvature of the cervical,
thoracic, and lumbar spine are
within normal limits. Bony
features of the shoulders and hips
are of equal height bilaterally.

Orthopedic Physical Examination
Special Tests. There are many physical tests, or 'special tests', that are used by clinicians in physical therapy, and orthopedics / orthopaedics in general, during a physical examination. These tests are used to rule in or out specific musculoskeletal problems. They help in the differential diagnosis of orthopedic conditions and injuries.
