Reading Street - Elementary Reading Comprehension Program Scott Foresman Reading Street (c) 2008 is an all-new reading instruction program for Grades PreK-6. Reading Street is designed to help teachers build readers through motivating and engaging literature, scientifically research-based instruction, and a wealth of reliable teaching tools. The reading program takes the guesswork out of differentiating instruction with a strong emphasis on ongoing progress-monitoring and an explicit plan to help with managing small groups of students. In addition, Reading Street prioritizes skill instruction at each grade level, so teachers can be assured they will focus on the right reading skill, at the right time, and for every student.

This entry in the Words Their Way series provides specific guidance, strategies, and tools for helping struggling students catch up with their peers in literacy. The thrust is intervention—specifically, utilizing word study with its hands-on, assessable approach to aid students struggling with the vocabulary, fluency, and comprehension load of middle and secondary classrooms.

Second grade teachers are introduced to lessons that teach all the phonemic awareness, phonics, and spelling skills included in most second grade curricula. The activities progress through a systematic, sequential phonics program that includes all the complex vowel patterns second graders need to learn. In all lessons students make and sort words to build letter-sound relationships. Each lesson ends with a transfer step to help them apply the sounds they learn to the spelling of new words.
