Grain of Salt The Author believes the financial American Dream is not dead yet for the middle class. The Key is financial education, information and action. With holistic Money education in this book, many of the middle class teens would achieve the Self-made Rich. George says, "We got to teach our kids about Money. And I wanted to teach good lessons for them. This book is a compilation of the Money wisdom from many other books and blogs. For this book, I worked like a curator in the museum, and it was very enjoyable process. I wanted this book to be a practical guide for the young. It was not meant to be spiritual pep talk nor success preaching. The contents are not my personal opinions, so it doesn't matter who I am. What matters is the usefulness of the contents of this book, and how you use the contents in the Game of Money in your life. What you choose and do count. Good luck."

In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at [www.worldbank.org/globalfindex](http://www.worldbank.org/globalfindex).

The pandemic has caused most households to have dramatically increased levels of stress and anxiety about money matters. A major reason contributing to this situation is that most Americans have had no formal personal finance or money management training or education to deal with their affairs. In fact, they have been mandated to take more training to get their driver's license than to manage their money. In short, most Americans suffer from financial illiteracy. They have learned what they know about money through trial and error. The root cause of their money failures is that they don't have the basic financial knowledge they need. They lack good money habits. Research has also shown that most households only spend one hour per month or about two minutes per day on their financial affairs. At the same time most adults under age 65 spend over two hours per day on social media. It is time to correct this imbalance and devote more attention to money matters. Good Money Habits in 17 Minutes Per Day has been written to fill in the basic money knowledge gap most people have and put them on journey of lifelong financial improvement by allocating 17 minutes per day or two hours per week to learning about and understanding money matters. The book has been designed to be read in about two hours and to serve as a continuing reference for the reader to improve their financial situations. It addresses the expected financial challenges and opportunities individuals face in life and what to expect along the way. The book covers the following subjects. Chapter 1 - The Pandemic Reset \* Overview \* Changes in Our Financial Lives \* The New Money Principles \* Why Personal Finance is More Important Than Ever Before Chapter 2 - The Three Stages of Your Financial Life \* Adulting \* Striving \* Fulfilling Chapter 3 - The Must-Do Actions of Each Life Stage \* Adulting \* Striving \* Fulfilling Chapter 4 - The Six Building Blocks to Financial Security \* Determine Where You Stand \* Rethink Your Financial Values \* Improve Your Financial Knowledge \* Focus Your Money Mindset \* Develop Your Cash Plan \* Improve Your Money Habits Chapter 5 - Determine Where You Stand \* Why Create a Financial Inventory? \* How to Create a Financial Inventory Chapter 6 - Rethink Your Financial Values \* What Are Your Financial Values? \* Sample Questions You Might Ask Yourself About Money Chapter 7 - Improve Your Financial Knowledge \* Today's Realities \* Your Imperfect Financial Education \* The Annual Cost of Financial Illiteracy \* What is Financial Literacy \* Moneytime - You Need More \* Spend2 - Two Hours Per Week \* Resources That Can Help Chapter 8 - Focus Your Money Mindset \* What is Your Money Mindset? \* What Has Gone Into Creating Your Money Mindset of Today? \* Your Money Beliefs \* How to Break The Cycle of Money Mindset Negativity \* Positive Thoughts Drive Action Chapter 9 - Develop Your Cash Plan \* Planning \* Tracking \* Taking Action Chapter 10 - Improve Your Money Habits \* What is a Money Habit? \* 10 Good Money Habits for A Well-Lived Financial Life \* Summary If there is one personal finance book to read, this is it. The book identifies the good habits that need to be developed to address life's key financial issues and of
