In this arresting volume Kenneth Thompson has combined academic research with acute observation in approximately equal proportions. Research has been focused on the theories and practices of those who, whether in thought or action, have played an influential part in the development of American foreign policy during the past decades. Originally published in 1960. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to

vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

This is a new release of the original 1960 edition.

A free eBook that asks hard questions about why politics once worked, and how today 's politics do not. What if idealistic reform itself is a culprit? In Political Realism, Jonathan Rauch argues that well-meaning

Read Free Political Realism And The Crisis Of World Politics

efforts to stem corruption and increase participation have stripped political leaders and organizations of the tools they need to forge compromises and make them stick. Fortunately, he argues, much of the damage can be undone by rediscovering political realism. Instead of trying to drive private money away out of politics, how about channeling it to strengthen parties and leaders? Instead of doubling down on direct democracy, how about giving political professionals more influence over candidate nominations? Rauch shows how a new generation of realist thinkers is using timetested truths about politics and government to build reforms for our time. Rich with contrarian insights and fresh thinking, Political Realism is an eye-opening challenge to today ' s

conventional wisdom about what ails American government and politics.

Combines a historical and philosophical perspective to examine in detail the concept of political realism as it is developed by Protestant theologian Reinhold Niebuhr, diplomat historian George Kennan, and political theorist Hans Morgenthau, presenting suggestions for lines along which sound political principles may lie.

After the Enlightenment is the first attempt at understanding modern political realism as a historical

phenomenon. Realism is not an eternal wisdom inherited from Thucydides, Machiavelli or Hobbes, but a twentieth-century phenomenon rooted in the interwar years, the collapse of the Weimar Republic, and the transfer of ideas between Continental Europe and the United States. The book provides the first intellectual history of the rise of realism in America, as it informed policy and academic circles after 1945. It breaks through the narrow confines of the discipline of international relations and resituates realism within the crisis of American liberalism. Realism provided a new framework for foreign policy thinking and transformed the nature of American democracy. This book sheds light on the emergence of 'rational choice' as a new

Read Free Political Realism And The Crisis Of World Politics

paradigm for political decision-making and speaks to the current revival in realism in international affairs.

E. H. Carr's classic work on international relations published in 1939 was immediately recognized by friend and foe alike as a defining work. The author was one of the most influential and controversial intellectuals of the 20th century. The issues and themes he developed continue to have relevance to modern day concerns with power and its distribution in the international system. Michael Cox's critical introduction provides the reader with background information about the author, the context for the book, and its main themes and contemporary relevance.

Read Free Political Realism And The Crisis Of World Politics

From climate change to nuclear war to the rise of demagogic populists, our world is shaped by doomsday expectations. In this path-breaking book, Alison McQueen shows why three of history's greatest political realists feared apocalyptic politics. Niccol-Machiavelli in the midst of Italy's vicious power struggles, Thomas Hobbes during England's bloody civil war, and Hans Morgenthau at the dawn of the thermonuclear age all saw the temptation to prophesy the end of days. Each engaged in subtle and surprising strategies to oppose apocalypticism, from using its own rhetoric to neutralize its worst effects to insisting on a clear-eyed, tragic acceptance of the human condition.

Read Free Political Realism And The Crisis Of World Politics

Scholarly yet accessible, this book is at once an ambitious contribution to the history of political thought and a work that speaks to our times.
