Difference Between Impact and Effect - Pediaa.Com

Key Difference – Impact vs Implication. Many people confuse the two words impact and implication when they are talking about the influences, consequences, and effects of something. Impact refers to a major influence or impact whereas implication refers to consequences that are likely to happen. The key difference between impact and implication is that, implications are not obvious or clear whereas impact is always direct and obvious.

However, while "impact" as a noun is frequently followed by a preposition - "there was a heavy impact on the roof," or "we heard a loud impact over our heads," - when used as a verb, impact does not require a prepositional phrase; it requires a direct object. Therefore your sentence structure would be (noun phrase/subject) "The strategy" (verb phrase-transitive) "impacts" (noun phrase/direct ...

The impacts of tourism include the effects of tourism on the environment and on destination communities, and its economic contributions. It has been part off the tourism discourse since the 1970s, with attention growing in recent years due to debates on overtourism. Impacts are not easily categorized, having

local voltage support at the distribution level, the DER can also provide reactive power flexibility at the transmission-distribution (T-D) interface, which can improve the reactive power grid adequacy of the distribution level. The term reactive power grid adequacy describes the compliance level of a distribution grid with a predefined reactive power range at the T-D interface. However, a challenge in grid planning procedures is the consideration of the usually intermittent reactive power flexibility potential by the DER. This study aims to develop practicable grid planning

procedures for advanced reactive power management at the T-D interface by making use of controllable reactive power sources at the distribution level, like DER and distributed reactive power compensators. The study is performed for a real German distribution grid section with very high-distributed generation.
