The IQM ES bundle provides enterprise services for the exchange of inspection lot data, inspection results, and quality notification data between the Quality Management (QM) application in SAP ERP 6.0 and external quality management systems.

~~SOA - Integration of QM Systems (IQM) -archive.sap.com~~

QM inspection document creation rule can be based on material master data or EWM inspection rule. In case material master is set as origin of inspection lot, still there is a requirement to create a generic inspection rule (usually based on document type) in /SCWM/QRSETUP to trigger inspection lot creation.
