(PDF) The Development Impact of Remittances in Latin America

Abstract. International private transfers from immigrant workers to families and friends have surged in Latin America. These transfers, also known as remittances, grew from a mere US\$5 billion in 1990 to US\$74.3 billion in 2016, supplementing the income of millions of families in the region. Particularly, remittances can contribute to human development by lifting large populations out of extreme poverty and by enabling better housing, education, and health.
