On 21st November 2017 Robert Mugabe resigned as President of Zimbabwe after 37 years in power. A week earlier the military had seized control of the country and forced him to step down as leader of the ruling Zanu-PF party. In this revised and updated edition of his classic biography, Stephen Chan seeks to explain and interpret Mugabe in his role as a key player in the politics of Southern Africa. In this masterly portrait of one of Africa's longest-serving leaders, Mugabe's character unfolds with the ebb and flow of triumph and crisis. Mugabe's story is Zimbabwe's - from the post-independence hopes of idealism and reconciliation to electoral victory, the successful intervention in the international politics of Southern Africa and the resistance to South Africa's policy of apartheid. But a darker picture emerged early with the savage crushing of the Matabeleland rising, the elimination of political opponents, growing corruption and disastrous intervention in the Congo war, all worsened by drought and the HIV/AIDS crisis. Stephen Chan's highly revealing biography, based on close personal knowledge of Zimbabwe, depicts the emergence and eventual downfall of a ruthless and single-minded despot amassing and tightly clinging to political power. We follow the triumphant nationalist leader who reconciled all in the new multiracial Zimbabwe, degenerate into a petty tyrant consumed by hubris and self-righteousness and ultimately face an ignominious endgame at the hands of his own army.

the new Republic of Zimbabwe after British rule ended in 1980, and he assumed the role of president seven years later. Mugabe retained a strong grip on power, through controversial elections, until he was forced to resign in November 2017, at age 93.

### Early Years and Education

Robert Gabriel Mugabe was born on February 21, 1924, in Kutama, Southern Rhodesia (now Zimbabwe), just months after Southern Rhodesia had become a British Crown colony. As a result, the people of his village were oppressed by new laws and faced limitations to their education and job opportunities. Mugabe's father was a carpenter. He went to work at a Jesuit mission in South Africa when Mugabe was just a boy, and mysteriously never came home. Mugabe's mother, a teacher, was left to bring up Mugabe and his three siblings on her own. As a child, Mugabe helped out by tending the family's cows and making money through odd jobs. Although many people in Southern Rhodesia went only as far as grammar school, Mugabe was fortunate enough to receive a good education. He attended school at the local Jesuit mission under the supervision of school director Father O'Hea. A powerful influence on the boy, O'Hea taught Mugabe that all people should be treated equally and educated to the fulfillment of their abilities. Mugabe's teachers, who called him "a clever lad," were early to recognize his abilities as considerable. The values that O'Hea imparted to his students resonated with Mugabe, prompting him to pass them on by becoming a teacher himself. Over the course of nine years, he studied privately while teaching at a number of mission schools in Southern Rhodesia. Mugabe continued his education at the University of Fort Hare in South Africa, graduating with a Bachelor of Arts degree in history and English in 1951. Mugabe then returned to his hometown to teach there. By 1953, he had earned his Bachelor of Education degree through correspondence courses. In 1955, Mugabe moved to Northern Rhodesia. There, he taught for four years at Chalimbana Training College while also working toward his Bachelor of Science degree in economics through correspondence courses with the University of London. After moving to Ghana, Mugabe completed his economics degree in 1958. He also taught at St. Mary's Teacher Training

he travelled to Africa to become an assistant on a tobacco farm in Southern Rhodesia. Within a few years, he had bought his own farm, and had begun to rise through the ranks of the country ' s agricultural administration. He was President of the Commercial Farmers ' Union when Robert Mugabe came to power in 1980 and, with no previous political affiliations, he was appointed Minister of Agriculture in the inaugural Zimbabwean government. His story throws a unique and fascinating light on the political and economic development of Zimbabwe. His assessment of its politicians; whether colleagues or adversaries; is candid and acute. In particular he offers an unusually nuanced and rarely glimpsed portrait of Mugabe, who, having asked him to leave government after the 1985 elections, later invited him back to be Minister of Transport, then Minister of Energy, and finally Minister of Agriculture again before Norman resigned in 1997. Written with a fine balance of the personal, the professional and the political, this memoir offers an observant insider ' s view of the early promise, and subsequent decline, of a newly independent country finding its way in the world. Denis Norman faced many difficult situations as a government minister, but his penchant for focusing on the positive earned him the nickname, ' Nothing Wrong Norman ' . His engaging story reflects his encouraging attitude and he remains hopeful for the future.

Robert Mugabe came to power in Zimbabwe in 1980 after a long civil war in Rhodesia. The white minority government had become an international outcast in refusing to give in to the inevitability of black majority rule. Finally the defiant white prime minister Ian Smith was forced to step down and Mugabe was elected president. Initially he promised reconciliation between white and blacks, encouraged Zimbabwe's economic and social development, and was admired throughout the world as one of the leaders of the emerging nations and as a model for a transition from colonial leadership. But as Martin Meredith shows in this history of Mugabe's rule, Mugabe from the beginning was sacrificing his purported ideals—and Zimbabwe's

potential—to the goal of extending and cementing his autocratic leadership. Over time, Mugabe has become ever more dictatorial, and seemingly less and less interested in the welfare of his people, treating Zimbabwe's wealth and resources as spoils of war for his inner circle. In recent years he has unleashed a reign of terror and corruption in his country. Like the Congo, Angola, Rwanda, Sierra Leone and Liberia, Zimbabwe has been on a steady slide to disaster. Now for the first time the whole story is told in detail by an expert. It is a riveting and tragic political story, a morality tale, and an essential text for understanding today's Africa.

This penetrating, timely portrait of Robert Mugabe is the psychobiography of a man whose once-brilliant career has ruined Zimbabwe and cast shame on the African continent. Heidi Holland's tireless investigation begins with her having dinner with Mugabe, the freedom fighter, and ends in a searching interview with Zimbabwe's president more than 30 years later. The author charts Mugabe's gradual self-destruction, and uncovers the complicity of some of the most respectable international players in the Zimbabwe tragedy. Probing the mystery of Africa's loyalty to one of its worst dictators, Holland explores the contradictions that cloud the life of the man who had embodied a continent's promise.

'What happened to Friday?' is a humourous, serious, sexy, shocking look at the author's life from very early childhood to the current day. It explores his coming of age, school antics, service in the Rhodesian army and life under the dictator, Robert Mugabe. Anyone not born in the country of Rhodesia will enjoy this story as an outsider but for those born there, they will find their own life in its pages.
