Sea Turtle: Amazing Pictures & Fun Facts for Kids

Sea turtle: Amazing Pictures & Fun Facts for Children

Seaturtle Discovery Kids: Sea Stories Of Cute Sea Turtles With Funny Pictures, Photos & Memes Of Seaturtles For Children... Does your child love cute sea turtles? If the answer is yes, this Sea Turtle Discovery Picture Book for Children that is part of Kate Cruso's Discovery Book Series is what your child & you as a parent are both going to love. Inside the sea turtle discovery book your child will learn about things like: * What Is The History Behind The Origin Of Sea Turtles? * What Are The Various Species? * How Do Sea Turtles Reproduce? How Do Sea Turtle Babies Look Like? * Are Sea Turtles Carnivore, Herbivore, Or Omnivore? What Do The Sea Turtles Eat? * Are Sea Turtles Social? * Some Revelations, Truths & Other Curious Stuff About Sea Turtles * Can Sea Turtles Be Kept As Pet? * Important Sea Turtle Resources & more... This book will take your child through a journey of fun facts, amazing discoveries, curious and intriguing stories about sea turtles, and hilarious pictures about sea turtles. You will find some interesting revelations & secrets you probably never heard about sea turtles. Some myths and truths, and other curious stuff about sea turtles that children just find cool and groovy to know are also included. For example, did you know that a sea turtle prefers bright and shiny colors like a bright sunny yellow? Kids learn about new and interesting facts so that a combination of both the curious and the new materials and facts together with the visual aspect of the pictures. Children are entertained with the coolness factor of the discovery book plus they learn some new and a little bit harder to retain facts simultaneously with the cool stuff and this is how the child is going to retain all of the information. The discovery books work in synchronization with the brain and not against the brain like some dull textbooks try to teach things. It is a fact that kids just love these discovery picture books about weird animals and weird stuff that the animals are doing because they love the coolness and grooviness factor of the books. Parents are super satisfied because their children show interest for things on a higher level of interest as usual. The discovery concept of this sea turtle book for example transforms a little bit more dry information and facts into brain friendly information that the child will retain & that the child will be able to use as active information later on. Getting a child involved in the learning and discovery process is key & once your child gets started with raising all kinds of questions, you actually have done a great job as a parent because the active and creative process of raising questions independently is where intelligence starts to develop and grow into a totally new dimension. If your child asks lots of questions you actually have the proof that providing discovery books to your child actually works because children who discover with their own senses and in an active and interactive way are able to develop intelligence on a much higher level than children who are not asking any questions and who are passively sitting in front of a TV all day long. Stimulation of thought and contemplation increases intelligence and the brain power and TV kills the brain cells of your child. Parents and home-schoolers alike are reporting unprecedented results from using this books as learning materials & they get results even with children who usually hate reading books and who have problems learning and retaining new and dry information.
