5. Black-Scholes and Beyond, Option Pricing Models, Chriss 6. Dynamic Asset Pricing Theory, Duffie I prefer to use my own lecture notes, which cover exactly the topics that I want. I like very much each of the books above. I list below a little about each book. 1. Does a great job of explaining things, especially in discrete time. 2.

Stochastic Processes and the Mathematics of Finance
The book begins with measure-theoretic probability and integration, and then develops the classical tools of stochastic calculus, including stochastic calculus with jumps and Lévy processes. For...

Stochastic Methods in Asset Pricing by Andrew Lyasoff ...
First, we add double stochastic volatility to the option pricing model combining stochastic interest rates and jumps with stochastic intensity, and we are the first to fill this gap. Second, the...
