This paper discusses sustainable tourism development and environmental protection strategies. Sustainable tourism is a form of tourism that maintains a balance between the environment, socio-cultural, and economic aspects of tourism. Also, it conserves biodiversity hence makes it available for future generations.

SUSTAINABLE TOURISM DEVELOPMENT AND ENVIRONMENTAL ...

Tourism can be an important part in the sustainable development of many local communities, provided that the community is actively involved in it, that economic benefits are equitably shared, and that it is part of a diversified local economy and does not undermine local culture and existing local sustainable economic activity. Tourism can also boost cultural and historical traditions which often contribute to conservation and the sustainable management of natural resources.
