In the stillness of autumn, I feel I can almost hear someone hum 'Lokame tharavadu (the world is my home)...' In her tiny flat in East London, as Mili waits for her baby to arrive, little things remind her of her life in India—the scent of jasmine flowers, a heavy downpour, a late-night cup of coffee, an amla or gooseberry—and she is overcome with a deep desire to recreate the flavors of her childhood. Can a jar of amla pickle help her travel back to that safe haven she once called home? In this sweetly nostalgic graphic novel, the narrator recounts her meandering journey from her ancestral village in South India to the United Kingdom, capturing the deep feeling of longing for home that shapes the lives of emigrants everywhere.

'Enthralling and moving. It is magical.'—Claudia Roden In the 1940s a third of Baghdad ' s population was Jewish. Within a decade nearly all 150,000 had been expelled, killed or had escaped. This graphic memoir of a lost homeland is a wordless narrative by an author homesick for a home she has never visited. Transported by the power of music to her ancestral home in the old Jewish quarter of Baghdad, the author encounters its ghost-like inhabitants who are revealed as long-gone family members. As she explores the city, journeying through their memories and her imagination, she at first sees successful integration, and cultural and social cohesion. Then the mood turns darker with the fading of this ancient community ' s fortunes. This beautiful wordless narrative is illuminated by the words and portraits of her family, a brief history of Baghdadi Jews and of the making of this work. Says Isaacs: ' The Finns have a word, kaukoikaipuu, which means a feeling of homesickness for a place you ' ve never been to. I ' ve been living in two places all my life; the England I was born in, and the lost world of my Iraqi-Jewish family ' s roots. '

Nicola Streeten's little boy, Billy, was two years old when he died following heart surgery for problems diagnosed only ten days earlier. Thirteen years later, able finally to revisit a diary written at the time, Streeten begins translating her notes into a graphic novel. The result, a retrospective reflection from a 'healed' perspective and gut wrenchingly sad at moments, is an unforgettable portrayal of trauma and our reaction to it - and, especially, the humour or absurdity so often involved in our responses. As Streeten's story unfolds and we follow her and her partner's heroic efforts to cope with well-meaning friends and day-to-day realities, we begin to understand what she means by her aim to create a 'dead baby story that is funny'.

In this volume, Mira Falardeau looks at the work of great women artists and their experiences in the industry to reveal advice and positive encouragement for future cartoonists. Heavily illustrated with cartoons and artwork from many of the best in the field, the book also asks serious questions about why there have been so few women cartoonists in the field of visual humor and if the digital age is opening more opportunities for female humorists. Falardeau is uniquely positioned to ask these questions. She has spent decades as an art historian, a specialist in visual humor, and the author of several books and essays on cartoonists and their history. She was also a former cartoonist herself—among the first generation of women in her field during the 1970s and 1980s. A History of Women Cartoonists is the first book to offer a truly global survey and analysis of the great women cartoonists of the last three decades—and a welcome addition to the history of comics and cartoons.

This edited collection explores how the relationship between comic art and feminism has been shaped by global, transnational, and local trends, curating analyses of multinational comic art that encompass themes of gender, sexuality, power, vulnerability, assault, abuse, taboo, and trauma. The chapters illuminate in turn the defining features of the aesthetics, materiality, and thematic content of their source material – often expressed with humorous undertones of self-reflection or social criticism – as well as recurring strategies of visualising and narrating female experiences. Broadening the research perspective of feminist comics to include national comics cultures peripheral to the cultural centers of Anglo-American, Franco-Belgian, and Japanese comics, the anthology explores how the dominant narrative or history of canonical works can be challenged or deconstructed by local histories of comics and feminism and their transnational connections, and how local histories complement or challenge the current understanding of the relationship between feminism and comic art. This is an essential collection for scholars and students in comics studies, women and gender studies, media studies, and literature.

This stunning fantasy inspired by Chinese folklore is a companion novel to Starry River of the Sky and the New York Times bestselling and National Book Award finalist When the Sea Turned to Silver In the valley of Fruitless mountain, a young girl named Minli lives in a ramshackle hut with her parents. In the evenings, her father regales her with old folktales of the Jade Dragon and the Old Man on the Moon, who knows the answers to all of life's questions. Inspired by these stories, Minli sets off on an extraordinary journey to find the Old Man on the Moon to ask him how she can change her family's fortune. She encounters an assorted cast of characters and magical creatures along the way, including a dragon who accompanies her on her quest for the ultimate answer. Grace Lin, author of the beloved Year of the Dog and Year of the Rat returns with a wondrous story of adventure, faith, and friendship. A fantasy crossed with Chinese folklore, Where the Mountain Meets the Moon is a timeless story reminiscent of The Wizard of Oz and Kelly Barnhill's The Girl Who Drank the Moon. Her beautiful illustrations, printed in full-color, accompany the text throughout. Once again, she has created a charming, engaging book for young readers.

This book demonstrates that since the 1970s, British feminist cartoons and comics have played an important part in the Women ' s Movement in Britain. A key component of this has been humour. This aspect of feminist history in Britain has not previously been documented. The book questions why and how British feminists have used humour in comics form to present serious political messages. It also interrogates what the implications have been for the development of feminist cartoons and for the popularisation of feminism in Britain. The work responds to recent North American feminist comics scholarship that concentrates on North American autobiographical comics of trauma by women. This book highlights the relevance of humour and provides a comparative British perspective. The time frame is 1970 to 2019, chosen as representative of a significant historical period for the development of feminist cartoon and comics activity and of feminist theory and practice. Research methods include archival data collection, complemented by interviews with selected cartoonists. Visual and textual analysis of specific examples draws on literature from humour theory, comics studies and feminist theory. Examples are also considered as responses to the economic, social and political contexts in which they were produced.

More than 60 female comics creators share their personal experiences with sexual violence and harassment through new and original comics Inspired by the global #MeToo Movement, Drawing Power: Women ' s Stories of Sexual Violence, Harassment, and Survival is a collection of original, nonfiction comics drawn by more than 60 female cartoonists from around the world.
