Historical Setting of the Book of Revelation *The Roman History The Reign*

This selection from Cassius Dio's Roman History gives the fullest description of that long struggle and ultimate triumph - detailing the brutal battles and political feuds that led to the collapse of Rome's 400-year-old republic, and Augustus' subsequent reign as emperor.

The Roman History: The Reign of Augustus (Classics ...

While there is no doubt that Dio does offer a full account of sorts of the reign of Augustus, there is little information that is not better presented by Suetonius or Tacitus. The history consists of seven books (chapters), numbered 50-56, that cover the period 32 BC to 14 AD. While there are some missing parts, these are not very significant.

The real name of the biggest superstar of WWE Roman Reigns is the Joe Anoa' I (Leati Joseph Anoa'I), he was born in Pensacola, Florida on May 25th in 1985. Now the age of Roman reigns is 34.

This essential document for the study of Roman history traces the story of Rome from Romulus and the foundations of Rome to the reign of the Emperor Tiberius. It is especially valuable to historians and students for its vivid eyewitness account of the dramatic years that saw the Roman Empire emerge from the chaos left by the shattered Republic. Rendered with the non-specialist in mind, the translation—the first English language translation in nearly ninety years—seeks to remain faithful to the original while avoiding technical and obscure jargon. The volume includes a substantial introduction to Velleius' life and times, and to the literary context of his historical work, as well as generous and detailed notes on the text, a bibliography, map, glossary of unfamiliar terms, and an index.

"This volume provides a new translation of Books 57 and 58 of Cassius Dio's Roman History and the 'fragments' of these books preserved in later Byzantine epitomes, as well as the first English language commentary to examine them in their entirety. Dio's Roman History covers almost 1,000 years from the founding of Rome up to the early third century AD, with Books 57 and 58 focusing on the reign of the emperor Tiberius (AD 14-37): his account of

this period is one of the most important to have survived from antiquity, not least as it preserves a historiographical tradition in some ways distinct from that of Tacitus and Suetonius. These books also reveal something of his authorial preoccupations and present a glimpse into the mind of the historian, and especially into his understanding of the mechanics of imperial government. The focus of the commentary is both historical and historiographical, in so far as it aims to illuminate not only issues arising from Dio's account of the Tiberian principate, but also to reveal the unity of his work and literary programme: a series of appendices complement the analysis by providing discussion of some of the key historical problems surrounding Dio and the reign of Tiberius. The translation (the first since the Loeb Classical Library edition of E. Cary) aims for both clarity and accuracy, and particular care has been taken to separate the various textual traditions that have been used to reconstruct the lost portions of Dio's text. An accompanying general Introduction offers an accessible overview of Cassius Dio's approach to history based on the latest research in the field, and will be of particular use to graduate and undergraduate students coming to the text for the first time"--

Why should we remember the reign of Charles V? What happened in those years that altered the course of history and helped to shape the world we live in today? Few ages have been more important to the history of Europe and America than the reign of Charles V. Charles ruled the first truly global empire, his sovereignty extending beyond Spain to the Netherlands, much of Italy, the Americas, and the Holy Roman Empire. His life saw the waning of the Renaissance, the religious transformation of Europe by the Protestant and Catholic Reformations, and the emergence of Spain as a leading international power. At the same time, the conquests of Mexico and Peru, the establishment of a Habsburg empire in eastern Europe, and a series of wars with France, the Ottoman Empire and the German Protestants transformed European politics and the global economy. William Maltby's engaging new study not only looks at Charles V as a person, but also examines important critical issues: the emperor's policies and their consequences; the institutional, economic and intellectual development of his various realms; and his military and diplomatic struggles. Concise and readable, it provides students and the general reader with an indispensable introduction to a reign that defies historical comparison, and an era that changed the world.

Offers profiles of the Roman emperors, from Augustus to Constantine, and looks at the most important events during this period in Roman history.

This is the only fully illustrated military life of the Emperor Publius Licinius Egnatius Gallienus (253-268). Considered the most blatantly military man of all of the soldier emperors of the third century, Gallienus is the emperor in Harry Sidebottom's best-selling Warrior of Rome novels. Gallienus faced more simultaneous usurpations and foreign invasions than any other emperor, but somehow he managed to survive. Dr. Ilkka Syvanne explains how this was possible. It was largely thanks to the untiring efforts of Gallienus that the Roman Empire survived for another 1,200 years. Gallienus was a notorious libertarian, womanizer, and cross-dresser, but he was also a fearless warrior, duellist and general all at the same time. This monograph explains why he was loved by the soldiers, yet so intensely hated by some officers that they killed him in a conspiracy. The year 2018 is the 1,800th anniversary of Gallienus' date of birth and the 1,750th anniversary of his date of death. The Reign of Gallienus celebrates the life and times of this great man.

A classic survey of Roman history, art, economic life, and religion through Constantine's rise to power.
