I am reviewing the novel The Temporal Void by Peter F Hamilton which is a very good book which I bought from kindle. This book is the 2nd installment in the Void Trilogy. In it we see the Void where the Rael live is still expanding. There is a good twist at the end involving the group who have made a pilgrimage to the Void.

"The temporal void" konzentriert sich sehr auf Edeard und diese Teile sind auch weitaus lebendiger und spannender als alles, was "draußen" passiert. Zur Orientierung: die Trilogie besteht aus 1. The dreaming void, 2. The temporal void und 3. The evolutionary void. Teil 3 soll wohl im August 2010 erscheinen.

Following right on from The Dreaming Void (Void Trilogy) comes the second in a trilogy of space operas from Peter Hamilton. Set in the same future history as some of his previous works. And featuring characters from them also. But you can get into this series without having read them, although you might get more out of this if you have.

~~The Temporal Void (Void Trilogy): Amazon.co.uk: Hamilton ...~~

Peter F. Hamilton sold the American rights to the series to Random House. The series includes the following books: The Dreaming Void (2007) The Temporal Void (2008) The Evolutionary Void (2010) The Void. The Void exists as a self-contained universe at the heart of the galaxy, studied by the Rael for millions of years.

~~The Temporal Void by Peter F. Hamilton - Pan Macmillan~~

Just finished listening to The Temporal Void, I too was very disappointed with the choice of narrator, not a patch on Toby Longworth in The Dreaming Void the first part of what I hope will be a trilogy. Hamilton's style is truly engaging, the juxtaposition of science over a thousand years in the future, and a the interleaving saga of a world ...

The Temporal Void Void Trilogy, Book 2 Written by: Peter F. Hamilton

The owner of the most powerful imagination in science fiction (Ken Follett, author of "Eye of the Needle") returns with this sequel to "The Dreaming Void," and the second work in a stunning far-future trilogy.

Reviewers exhaust superlatives when it comes to the science fiction of Peter F. Hamilton. His complex and engaging novels, which span thousands of years—and light-years—are as intellectually stimulating as they are emotionally fulfilling. Now, with The Dreaming Void, the first volume in a trilogy set in the same far-future as his acclaimed Commonwealth saga, Hamilton has created his most ambitious and gripping space epic yet. The year is 3589, fifteen hundred years after Commonwealth forces barely staved off human extinction in a war against the alien Prime. Now an even greater danger has surfaced: a threat to the existence of the universe itself. At the very heart of the galaxy is the Void, a self-contained microuniverse that cannot be breached, cannot be destroyed, and cannot be stopped as it steadily expands in all directions, consuming everything in its path: planets, stars, civilizations. The Void has existed for untold millions of years. Even the oldest and most technologically advanced of the galaxy’s sentient races, the Raeli, do not know its origin, its makers, or its purpose. But then Inigo, an astrophysicist studying the Void, begins dreaming of human beings who live within it. Inigo’s dreams reveal a world in which thoughts become actions and dreams become reality. Inside the Void, Inigo sees paradise. Thanks to the gaiafield, a neural entanglement wired into most humans, Inigo’s dreams are shared by hundreds of millions—and a religion, the Living Dream, is born, with Inigo as its prophet. But then he vanishes. Suddenly there is a new wave of dreams. Dreams broadcast by an unknown Second Dreamer serve as the inspiration for a massive Pilgrimage into the Void. But there is a chance that by attempting to enter the Void, the pilgrims will trigger a catastrophic expansion, an accelerated devourment phase that will swallow up thousands of worlds. And thus begins a desperate race to find Inigo and the mysterious Second Dreamer. Some seek to prevent the Pilgrimage; others to speed its progress—while within the Void, a supreme entity has turned its gaze, for the first time, outward. . . . BONUS: This edition includes an excerpt from Peter F. Hamilton’s The Temporal Void.

BONUS: This edition contains Peter F. Hamilton’s short story, If At First... Exposed as the Second Dreamer, Araminta has become the target of a galaxywide search by others equally determined to prevent—or facilitate—the pilgrimage into the Void. An indestructible microuniverse, the Void may contain paradise, but it is also a deadly threat. For the reality that exists inside its boundaries demands energy drawn from planets, stars, galaxies—from everything that lives. Meanwhile, the story of Edeard, the Waterwalker, continues to unfold. With time running out, Inigo, the First Dreamer, must decide whether to release Edeard’s dangerous final dream. And Araminta must choose whether to run from her responsibilities or face them down, with no guarantee of success or survival. But all these choices may be for naught if the leader of a rival faction enters the Void. For it is not paradise she seeks there, but dominion.

Peter F. Hamilton’s extraordinary far-future epics recall the golden age of science fiction, as practiced by Isaac Asimov and Robert Heinlein. Nowhere is that legacy more in evidence than in The Void Trilogy. Taking place twelve hundred years after the events of Hamilton’s Commonwealth novels, The Dreaming Void, The Temporal Void, and The Evolutionary Void are Hamilton at his most ambitious and daringly imaginative—and now all three are together for the first time in this addictive eBook bundle. Contains an exhilarating preview of Peter F. Hamilton’s highly anticipated novel, The Abyss Beyond Dreams, set in the same universe as The Void Trilogy. THE DREAMING VOID THE TEMPORAL VOID THE EVOLUTIONARY VOID The year is 3589. At the very heart of the galaxy is the Void, a self-contained microuniverse that cannot be stopped as it expands in all directions, consuming everything in its path. Even the oldest and most technologically advanced of the galaxy’s sentient races, the Raeli, do not know its origin or its purpose. Then Inigo, an astrophysicist, begins having vivid dreams. Inside the Void, Inigo sees paradise. Thanks to the gaiafield, a neural entanglement wired into most humans, those dreams are shared by hundreds of millions—and a religion, the Living Dream, is born, with Inigo as its prophet. But then he vanishes. A new wave of dreams broadcast by an unknown Second Dreamer serves as the impetus for a massive Pilgrimage into the Void, which could trigger an accelerated devourment phase that will swallow up thousands of worlds. Thus begins a desperate race to find Inigo and avert catastrophe. Praise for The Void Trilogy The Dreaming Void “Peter F. Hamilton is the owner of the most powerful imagination in science fiction, author of immense, complex far-future sagas. The Dreaming Void is his best yet.”—Ken Follett “A real spellbinder from a master storyteller . . . dozens of scenarios, a surprisingly well-delineated cast of thousands, plotting enough to delight the most Machiavellian of readers.”—Kirkus Reviews (starred review) “Amazing storytelling . . . Hamilton is the clear heir to Heinlein in my view.”—Marc Andreessen, founder, Netscape The Temporal Void “Fusing elements of hard SF with adventure fantasy tropes, Hamilton has singlehandedly raised the bar for grand-scale speculative storytelling.”—Publishers Weekly “A great, sprawling, ripping yarn reminiscent of Golden Age Science Fiction.”—SF Crowsnest “A gripping story, with the fates of two universes at stake.”—SF Site The Evolutionary Void “Satisfying and powerful . . . Space Opera doesn’t get much more epic than Peter F. Hamilton, something proven in spades in The Evolutionary Void.”—SFFWorld “Spiced with plenty of action and intrigue.”—San Jose Mercury News “The author’s mastery of the art of the ‘big story’ earns him a place among the leading authors of dynastic SF.”—Library Journal

In the distant future, corporations have become sustainable communities with their own militaries, and corporate goals have essentially replaced political ideology. On a youthful, rebellious impulse, Lawrence joined the military of a corporation that he now recognizes to be ruthless and exploitative. His only hope for escape is to earn enough money to buy his place in a better corporation. When his platoon is sent to a distant colony to quell a local resistance effort, it seems like a stroke of amazing fortune, and Lawrence plans to rob the colony of their fabled gemstone, the Fallen Dragon, to get the money he needs. However, he soon discovers that the Fallen Dragon is not a gemstone at all, but an alien life form that the local colonists have been protecting since it crashed in their area. Now, Lawrence has to decide if he will steal the alien to exploit the use of its inherent biotechnical processes -- which far exceed anything humans are capable of -- or if he will help the Resistance get the alien home.

A conclusion to the epic space adventure that began with The Dreaming Void and The Temporal Void returns readers to the Commonwealth universe of the far-future.

WALL STREET JOURNAL BESTSELLER • “An interstellar suspense thriller . . . sweeping in scope and emotional range.”—San Antonio Express-News In the star-spanning civilization known as the Intersolar Commonwealth, twenty-three planets have fallen victim to the Prime, a technologically advanced alien species genetically hardwired to exterminate all other forms of life. But the Prime is not the only threat. The Starflyer, an alien with mind-control abilities impossible to detect or resist, has secretly infiltrated the Commonwealth and is sabotaging the war effort. Is the Starflyer an ally of the Prime, or has it orchestrated a fight to the death between the two species for its own advantage? Caught between two deadly enemies, the fractious Commonwealth must unite as never before. This will be humanity’s finest hour—or its last gasp. Praise for Judas Unchained, the sequel to Pandora’s Star “Bristles with the energy of golden age SF, but the style and characterizations are polished and modern.”—SF Site “You’re in for quite a ride.”—The Santa Fe New Mexican “The reader is left breathless in amazement.”—SFRevu

The Confederation is starting to collapse politically and economically, allowing the 'possessed' to infiltrate more worlds. Quinn Dexter is loose on Earth, destroying the giant arcologies one at a time. As Louise Kavanagh tries to track him down, she manages to acquire some strange and powerful allies whose goal doesn't quite match her own. The campaign to liberate Mortonridge from the possessed degenerates into a horrendous land battle, the kind which hasn't been seen by humankind for six hundred years; then some of the protagonists escape in a very unexpected direction. Joshua Calvert and Syrinx fly their starships on a mission to find the Sleeping God -- which an alien race believes holds the key to overthrowing the possessed. THE NAKED GOD is the brilliant climax to Peter F. Hamilton's awe-inspiring Night's Dawn Trilogy.

Bestselling author Peter F. Hamilton returns to his acclaimed Commonwealth series in this thrilling follow-up to The Abyss Beyond Dreams. Featuring Hamilton's trademark blend of intricate plotting, riveting suspense, high-concept science, and vivid characters, A Night Without Stars brings the story to a fully satisfying finish. After centuries trapped inside the Void, the planet Bienvenido--along with its inhabitants, both human and Faller--has been expelled into normal space. But the survivors are millions of light-years from the Commonwealth, which knows nothing of their existence. As the two races plunge into mortal conflict for sole possession of the planet, the humans seem destined to lose--despite the assistance of the mysterious Warrior Angel, who possesses forbidden Commonwealth technology. With the Fallers' numbers growing, and their ability to mimic humans allowing them to infiltrate all levels of society, it's only a matter of time before they surge to victory. Then, on a routine space flight, Major Ry Evine inadvertently frees a captive vessel that crash-lands on Bienvenido carrying the last, best hope for human survival: a baby. But a far from ordinary one. The child not only ages at a remarkable rate but demonstrates knowledge and abilities far beyond those of Bienvenido's humans. Hunted by Fallers and humans alike, she is a crucial link to humanity's lost past--and a glorious future already almost out of reach. Praise for A Night Without Stars "Roars relentlessly along in utterly mesmerizing style, with edge-of-the-seat plotting, thrilling action, and knife-edge tension that will leave readers gasping. An atomic blast of a yarn. Hamilton in peak form and absolutely not to be missed."--Kirkus Reviews (starred review) "[An] interstellar adventure with espionage, old-style space exploration, and the story of a fugitive who carries the hope of salvation."--Publishers Weekly "An action-packed page-turner . . . It's a joy to witness such a master of science fiction at work."--SFFWorld Praise for Peter F. Hamilton's The Abyss Beyond Dreams "Incredibly robust and exciting and rousing, sharing flavors of Jack Vance, John Wright, China Miéville, Orson Scott Card, and A. E. van Vogt . . . Hamilton's deployment of lots of grand super-science is utterly deft and convincing."--Locus "Engrossing . . . The characters, always Hamilton's strength, remain as distinctive as ever."--Kirkus Reviews "Everything one wants in sf--great characters, mind bending stuff, adventure, politics, romance, revolution . . . just superb."--Fantasy Book Critic "The work of an author at the top of his game."--SFFWorld

All the best in humanity rises to meet a powerful alien threat in the sequel to Salvation--part of an all-new trilogy from "the owner of the most powerful imagination in science fiction" (Ken Follett). The comparative utopia of twenty-third-century Earth is about to go dreadfully awry when a seemingly benign alien race is abruptly revealed to be one of the worst threats humanity has ever faced. Driven by an intense religious extremism, the Olyix are determined to bring everyone to their version of God as they see it. But they may have met their match in humanity, who are not about to go gently into that good night or spend the rest of their days cowering in hiding. As human ingenuity and determination rise to the challenge, collective humanity has only one goal--to wipe this apparently undefeatable enemy from the face of creation. Even if it means playing a ridiculously long game indeed. But in a chaotic universe, it is hard to plan for every eventuality, and it is always darkest before the dawn.
