FIN 571 WEEK 5 Working Capital Simulation: Managing Growth Part 1. FIN 571 WEEK 5 Working Capital Simulation: Managing Growth Part 1. Acting as the executive team for a small company, your team will apply the principles of capital budgeting to invest in growth and cash flow improvement opportunities in three phases over 10 simulated years.

FIN 571 WEEK 5 Working Capital Simulation: Managing Growth -

Solution: Clearly 0 1 2n 2+ n+ 1 1 2n. We know that X1 n=1 1 2n2 = 1 2 X1 n=1 1 n2 converges, so the original series converges by the comparison test. (b) X1 n=1 1 2n 2n+ 1; Solution: Note that for n2 2n 2n+ 1! 1 2 as n !1. Since X1 n=1 1 n converges, so the original series converges by the limit comparison test. (c) X1 n=1 1 2n 1; Solution: Clearly 1 2n 1 1 2n for all n 2N. As the harmonic series X1
