An excellent carpet cleaner for the price. We used it on an old, heavily soiled living room carpet and the Vax did a fantastic job of cleaning it. All of the dirt and stains were removed and the carpet looked fantastic after it had dried. The instructions were straight forward and It took about 10 minutes to put the cleaner together.

The machine has a float in the dirty water tank that is designed to rise with the level of the water. However, if the machine is jolted, or there is a large amount of foam in the tank, the float may rise to the top. The rising float will block the suction and the machine will make a high pitched noise.

Solomon Northup was born a free black man. He was kidnapped, tortured, and sold into slavery. For 12 years, he was kept in bondage as a slave in Louisiana--Twelve Years a Slave is his moving and raw account of survival and life as a slave. This edition includes the full book as well as a comprehensive companion with historical notes, character overview, themes overview, and chapter summaries.

'A treatise on empathy and grace in extraordinary circumstances' Jojo Moyes 'Today I sat on a bench facing the sea, the one where I waited for L to be born, and sobbed my heart out. I don't know if I'll ever recover.' This note was written on 9 November 2017. As the seagulls squawked overhead and the sun dipped into the sea, Alexandra Heminsley's world was turning inside out. She'd just been told her then-husband was going to transition. The revelation threatened to shatter their brand new, still fragile, family. Some Body to Love is Alex's profoundly open-hearted memoir about losing her husband but gaining a best friend, and together bringing up a baby in a changing world. Its exploration of what it means to have a human body, to feel connected or severed from it, and how we might learn to accept our own, makes it a vital and inspiring contribution to some of the most complex and heated conversations of our times. \_\_\_\_\_ Praise for Some Body to Love: 'Insightful and wise, generous and kind' David Nicholls 'A brave, thoughtful and timely book' Naomi Alderman 'A testament to how family and love can be whatever shape we want them to be' Red 'It took my breath away' Bryony Gordon 'A book with a wild, deep, joyous, tender love of people at its heart' Emma Jane Unsworth

A delightfully squirmy story starring Harry the Poisonous Centipede in a scary world of flying swoopers, furry biters and the dreaded Hoo-Mins! With wonderful humour and brilliant illustrations, this is the perfect book for wriggly young readers.

Darrell Vodopich, co-author of Biology Laboratory Manual, has written a new lab manual for ecology. This lab manual offers straightforward procedures that are do-able in a board range of classroom, lab and field situations.

"David Unger, an aging circus magician, recounts his youth in colonial West Africa and considers the events that led him from a profession in medicine to one in magic; his conscription into the British Army during the Zulu Rebellion, his work under and friendship with Babu (Gandhi), his capture and astonishing escape from a Zulu cave prison, and his devotion to Maud King, a forlorn British explorer and ethnologist who is entirely devoted to the beauty of Africa and its people and who is sixteen years David's senior."--Jacket.

Georgie was just a typical teenager when it happened; she was studying hard for a place at her dream university and having fun with her friends on weekends. She always knew what was coming next. She had her entire life planned, until one night and one event turned her whole world upside down. In an instant, everything had changed, and it was never to be the same again. "'Freaks Like Me'" is a touching memoir about invisible illness, mental health and the prejudice that sadly comes alongside it. It's the true story of how one girl and her loved ones finally learnt to accept the hand they had been dealt...
